SPRAY 6 SECONDS PER 1000 CUBIC FEET: FLIES, MOSQUITOES ARE DOWN AND OUT

For comfort and convenience through the summer keep a Spix Aerosol can where you can reach it when ever flies or mosquitoes start coming at you. Then you press the button — hold it down 6 seconds per 1000 cubic feet of space. The pests will be finished.

Sprayed directionally Spix Aerosol is effective also against roaches and silverfish. Its aroma is agreeable to humans. ~~Effectiveness and safety~~ ^{considered} is an outstanding value to justify Dolge's discrimination. ~~See how easy it is to use. Just spray the can when you order.~~
