FILE COPY

Kim Davis, CC, APC, Manager
Agent for GEA Farm Technologies
c/o RegWest Company, LLC
30856 Rocky Road
Greeley, CO 80631-9375

Subject: Zincin
EPA Registration No. 1072-5
Application Date: September 25, 2009
Receipt Date: September 28, 2009

Dear Ms. Davis:

This acknowledges receipt of your notification, submitted under the provision of PR Notice 98-10, FIFRA section 3(c)9.

Proposed Notification:

- Change in company address
- Label reformat
- Revision of Storage and Disposal Statement per PR Notice 2007-4

General Comments:

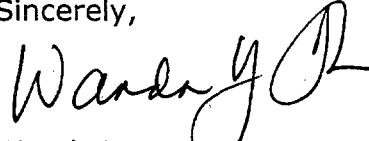

Based on a review of the material submitted, the following comments apply:

1. The notification application is acceptable and a copy has been inserted in your file for future reference.
2. "Refillable container" means a container that is intended to be filled with pesticide more than once for sale or distribution. The registrant determines whether a container is intended to be refilled for sale or distribution (in which case it is a refillable container) or if it is not intended to be refilled for sale or distribution (in which case it is not a refillable container) and implements its decision by labeling the container appropriately. This decision also would impact packaging design, packaging material, and distribution and marketing plans.

Please consider whether your containers meet our definition of refillable. If it is not your intention for this product to be marketed in containers which are returned to the distributor for refill and resale, then delete the language relevant to refillable containers, within the Storage and Disposal statement.

Should you have any questions or comments concerning this letter, please contact me at (703) 308-6345.

Sincerely,

Wanda Y. Henson

Dear Ms. Mitchell:

Subject: GEA Farm Technologies, Inc.
 Zinicin™
 EPA Reg. No. 1072-5

On behalf of **GEA Farm Technologies, Inc.**, RegWest Company, LLC is submitting the attached documents in support of a label revision notification for subject product. RegWest will act as sole agent in this endeavor.

Attached are the following:

1. Application for Pesticide: Other (Notification)
2. Agent authorization letter (copy)
3. One **Reference Label** (illustrating the revisions)
4. Two **New Labels** (incorporating the revisions)
5. Two market labels

The primary purpose of this label revision notification is to update the disposal language per PR Notice 2007-4. We are also reformatting the label and updating the company name and address.

Please contact me at (970) 353-0611 or kim@regwest.com if you have any questions or require additional information.

Regards,
RegWest Company, LLC

A handwritten signature in black ink, appearing to be 'Kim Davis', is written over a circular stamp or mark.

Dear Ms. O'Malley

Subject: Authorization for Representation/Agent Status
EPA Company Number: 1072

Pursuant to 40 CFR § 152.50(b)(3), GEA Farm Technologies, Inc. designates RegWest Company, LLC as authorized agent to act on behalf of GEA Farm Technologies, Inc. with respect to any registration matters, regulated through the FIFRA (as amended) that may come before the Agency.

Effective immediately the address of record will be:

GEA Farm Technologies, Inc.
c/o RegWest Company, LLC
30856 Rocky Road
Greeley, CO 80631-9375

The contact for RegWest is Kim Davis. She can be reached at (970) 353-0611 (phone), (970) 353-0613 (fax) or kim@regwest.com (e-mail) if you have any questions or require additional information.

This authorization will remain valid until either GEA Farm Technologies, Inc. or RegWest gives further notice.

Regards,

A handwritten signature in cursive script that reads "Dawn Bobysud".

KEEP OUT OF REACH OF CHILDREN
DANGER
 First Aid

If in Eyes:	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.
If on Skin or Clothing:	<ul style="list-style-type: none"> • Take off contaminated clothing. • Immediately rinse skin with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.
If Swallowed:	<ul style="list-style-type: none"> • Immediately call a poison control center or doctor for treatment advice. • Immediately drink large quantities of milk if available; otherwise drink large quantities of water. • Do not induce vomiting unless told to do so by the poison control center or doctor. • Do not give anything by mouth to an unconscious person.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-877-741-1032 for emergency medical treatment information.	
Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.	

(Note: The first aid statements' grid format will be used if market label space permits; otherwise a paragraph format will be used.)

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

DANGER: Corrosive, may cause severe skin and eye irritation or chemical burns to broken skin. Causes eye damage. Wear safety glasses or goggles and rubber gloves when handling this product. Wash after handling. Avoid breathing vapors. Vacate poorly ventilated areas as soon as possible. Do not return until odors have dissipated. Refer to Material Safety Data Sheet (MSDS).

2/8

Physical or Chemical Hazards

Strong oxidizing agent. Mix only with water according to label directions. Mixing this product with chemicals (e.g. ammonia, acids, detergents, etc.) or organic matter (e.g. urine, feces, etc.) will release chlorine gas which is irritating to eyes, lungs and mucous membranes.

Environmental Hazards

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

State and Local Regulations

Consult your dealer, state or local health authorities for additional information.

[TABLE OF PROPORTIONS – AVAILABLE CHLORINE

100 ppm – 1 fluid oz. (30 ml) in 10 gallons (38 liters) water

200 ppm – 2 fluid oz. (60 ml) in 10 gallons (38 liters) water

600 ppm – 6 fluid oz. (180 ml) in 10 gallons (38 liters) water]

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Degrades with age. Use a test kit and increase dosage as necessary to obtain the required level of available chlorine.

Sanitization of Nonporous Food Contact Surfaces: Rinse/Immersion Method: Use a solution of 100 ppm available chlorine in the sanitizing solution if a chlorine test kit is available. Solutions containing an initial concentration of 100 ppm available chlorine must be tested and adjusted periodically to ensure that the available chlorine does not drop below 50 ppm. Prepare a 100 ppm sanitizing solution by thoroughly mixing 1 oz. of this product with 10 gallons of water. If no test kit is available, prepare a sanitizing solution by thoroughly mixing 2 oz. of this product with 10 gallons of water to provide approximately 200 ppm available chlorine by weight.

Clean equipment surfaces in the normal manner. Prior to use, thoroughly rinse or immerse all surfaces with the sanitizing solution, maintaining contact with the sanitizer for at least 2 minutes and allow the sanitizer to drain. If solution contains less than 50 ppm available chlorine, as determined by a suitable test kit, either discard the solution or add sufficient product to reestablish a 200 ppm residual. Do not rinse equipment with water after treatment and do not soak equipment overnight. Sanitizers used in automated systems may be used for general cleaning but may not be reused for sanitizing purposes.

Sanitization of Porous Food Contact Surfaces: Rinse Method: Prepare a 600 ppm solution by thoroughly mixing 6 oz. of this product with 10 gallons of water. Clean all surfaces in the normal manner. Thoroughly rinse/immerse all surfaces with the 600 ppm solution, maintaining contact for at least 2 minutes. Prior to using equipment, rinse/immerse all surfaces with a 200 ppm available chlorine solution. Do not rinse with water after treatment and do not soak equipment overnight.

Agricultural Uses: Food Egg Sanitization: Thoroughly clean all eggs. Thoroughly mix 2 oz. of this product with 10 gallons of water to produce a 200 ppm available chlorine solution. Do not allow the sanitizer temperature to exceed 130°F. Spray the warm sanitizer so that the eggs are thoroughly wetted. Allow the eggs to thoroughly dry before casing or breaking. Do not apply a potable water rinse. Do not reuse the solution to sanitize eggs.

8/8

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in a cool, dry area, away from direct sunlight and heat to avoid deterioration. Keep from freezing. If frozen, separation may occur. Completely thaw and mix well prior to use. In case of spill, flood area with large quantities of water. **Pesticide Disposal:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your state pesticide or environmental control agency or the hazardous waste representative at the nearest EPA Regional Office for guidance. **Container Disposal:** Refillable container. Refill this container only with Sodium Hypochlorite. Do not reuse this container for any other purpose. Cleaning the container before final disposal is the responsibility of the person disposing of the container. Cleaning before refilling is the responsibility of the refiller. To clean the container before final disposal, empty the remaining contents from this container into application equipment or mix tank. Fill the container about 10 percent full with water. Agitate vigorously or recirculate water with the pump for 2 minutes. Pour or pump rinsate into application equipment or rinsate collection system. Repeat this rinsing procedure two more times.
