US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (TS-767) WASHINGTON, DC 20460	EPA REGISTRATION NO. 1072-13	DATE OF ISSUANCE SEP 10 1974
	TERM OF ISSUANCE	
NAME OF PESTICIDE PRODUCT FREE CHLORINATED SANITIZER		

NOTICE OF PESTICIDE: REGISTRATION
 REREGISTRATION
 (Under the Federal Insecticide, Fungicide,
 and Rodenticide Act, as amended)

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

**Babson Brother Company
 1880 Country Farm Drive
 Naperville, IL 60563**

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.
 Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Document, EPA has reregistered the above named product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

Make the following labeling changes before you release the product for shipment:

1. Refer to the enclosed Attachment A for the necessary revisions to the Precautionary Statements, the Statement of Practical Treatment and the Pesticide Disposal Statement for the subject product.
2. The proposed label directions for use should be expanded to reflect items B(1), (3), (5), and (7).
3. Under the Statement of Practical Treatment, insert the following, under "If swallowed, drink large amounts of water. DO NOT induce vomiting. Avoid alcohol. Call a physician or poison control center immediately.". This statement replaces the one under Attachment A.

ATTACHMENT IS APPLICABLE

SIGNATURE OF APPROVING OFFICIAL

4. Under the directions for use, revise the wordings "... bactericidal solution..." to read "...sanitizing solution...".

5. Revise the Environmental Hazards statement to read: " This pesticide is toxic to fish and other aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA."

A stamped copy of the product label is enclosed for your records.

Submit one copy of the final printed labeling before releasing the product in channels of trade with the revised labeling.

Refer to the enclosed evaluation of the six acute toxicity studies. The study classified as supplementary should be reconducted and submitted within six (6) months from the date of this Notice.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

SURGE

PREE™

**CHLORINATED
SANITIZER**

CONTENTS: 4-8 LB. PLASTIC CONTAINERS

40589

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Surfaces must be thoroughly cleaned before sanitizing with Surge Pree.

1. To sanitize milking equipment, milk tanks and C.I.P. pipelines, prepare bactericidal solution strength recommended by local regulatory agency.

1 Ounce (28.3 Grams) to 6 U.S. Gallons (22.7 Liters) provides 100 ppm available chlorine.

2. Circulate solution for not less than 5 minutes.

3. Drain thoroughly and air dry.

STORAGE AND DISPOSAL: Keep product dry in tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. In case of decomposition isolate container, if possible, and flood with large amounts of water to dissolve all material before discarding. Place in trash collection or dispose in approved landfill area.

PHOSPHATE CONTENT: Expressed as P - 3.2%
PREE is a Trademark of BABSON BROS. CO.

DANGER

KEEP OUT OF REACH OF CHILDREN
