**PREETM** 

EPA Registration Number 1072-13 Your Amendment Dated April 4, 2001

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, to revise PR Notices 97-6, 2001-1, and 2000-5 is acceptable provided that you make the labeling changes listed below before you release the product for shipment bearing the amended label.

- On page 3, delete the "Ingredient Statement", it is listed on the front panel of the 1.
- On page 3, delete the "company name and address", it is listed on the front panel 2. of the label.
- Delete the product name "PREETM Chlorinated Sanitizer" from the center panel 3. above the EPA Registration Number.

A stamped copy is enclosed for your records. Submit one copy of the final printed label before you release the product for shipment bearing the amended label.

If you have any questions regarding this letter, please contact Delores Williams at (703) 308-6372.

Sincerely,

Robert S. Brennis **Product Manager 32**

Note to Physic	ian: Probable mucosal damage may contraindicate the use of gastric lavage.

# Physical or Chemical Hazards

STRONG OXIDIZING AGENT. Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contam nation with moisture, organic matter or other chemicals may start a chemical reaction, with generation of heat, peration of hazardous gasses and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well-ventilated area. Flood with large volumes of water if necessary.

#### **Environmental Hazards**

This product is toxic to fish and other aquatic organisms. Do not discharge effluent containing this product into lakes, streams ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

#### **DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

#### Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

Storage: Keep product dry in tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of decomposition, isolate container, if possible, and flood with large amounts of water to dissolve all material before discarding. **Pesticide Disposal:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your state pesticide or environmental control agency or the hazardous waste representative at the nearest EPA Regional Office for guidance. **Container Disposal:** Triple rinse (or equivalent) then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

For use in milk parlors, dairies, barns and food processing facilities.

Before sanitizing with WESTFALIA•SURGE PREE, remove all gross food particles and soil, by a pre-flush or pre-scrape, and when necessary, a pre-soak treatment. Then thoroughly wash surfaces or objects with a good detergent or compatible cleaner followed by a potable water rinse.

- 1. To sanitize milking equipment, milk tanks and CIP pipelines, prepare sanitizing solution strength recommended by local regulatory agency.

  1 Ounce (28.3 grams) to 6 U.S. Gallons (22.7 Liters) provides 100 ppm available chlorine.
- 2. Immerse, flood or spray to thoroughly wet all surfaces. Fill piping and circulate solution for not less than 5 minutes.
- 3. Drain thoroughly and air dry.

In mechanical operations, prepared use solution may not be re-used for sanitizing, but may be used for other purposes, such as cleaning. In manual operations, fresh sanitizing solution must be prepared at least daily or more often if the solution becomes diluted or soiled.
