FILE COPY

Subject: PREE Chlorinated Sanitizer
EPA Reg.#: 1072-13
Notification Date: August 31, 2010
Receipt Date: September 3, 2010

Dear Ms. Davis:

This acknowledges the receipt of your notification, submitted under the provision of PR Notice 98-10 and FIFRA section 3(c)9.

Proposed Notification:

Revise Storage and Disposal Statement in compliance with PR Notice 2007-4 and the change of company name from "Westfalia Surge, Inc" to "GEA Farm Technologies" for PREE Chlorinated Sanitizer product (EPA Reg# 1072-13).

General Comment:

Based on the review of the material submitted, the following comments apply:

Change subheading "**Container Disposal**" to "**Container Handling and Disposal**". All other minor changes on the product label and the change of Company name are acceptable.

This notification and a copy of this letter have been inserted in your file for future reference."

If you have any questions on this letter, please contact David Liem at 703-305-1284 or by email at liem.david@epa.gov

Sincerely

Wanda Y. Henson
Acting Product Manager (32)
Regulatory Management Branch II
Antimicrobial Division (7510P)

Dear Ms. Henson:

Subject: GEA Farm Technologies
Pree™
EPA Reg. No. 1072-13

On behalf of GEA Farm Technologies, RegWest Company, LLC is submitting the attached documents in response to PR Notices 98-10 and 2007-4. RegWest Company will act as sole agent in this endeavor.

Attached are the following documents:

- 1. Application for Pesticide: Notification
2. One Reference Label (illustrating the label revisions)
3. Two New Labels (incorporating the revisions)

In addition to the PR Notices changes, we are updating the company name from "Westfalia-Surge, Inc." to "GEA Farm Technologies", among other minor changes. Please refer to the Reference Label for an illustration of all revisions.

Please contact me at 970.353.0611 or kim@regwest.com if you have any questions or comments concerning this submission.

Regards,
RegWest Company, LLC

First Aid

If in Eyes:	<ul style="list-style-type: none">• Hold eye open and rinse slowly and gently with water for 15-20 minutes.• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.• Call a poison control center or doctor for treatment advice.
If Swallowed:	<ul style="list-style-type: none">• Immediately call a poison control center or doctor for treatment advice.• Have person sip a glass of water if able to swallow.• Do not induce vomiting unless told to do so by the poison control center or doctor.• Do not give anything by mouth to an unconscious person.
If Inhaled:	<ul style="list-style-type: none">• Move person to fresh air.• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.• Call a poison control center or doctor for further treatment advice.
If on Skin or Clothing:	<ul style="list-style-type: none">• Take off contaminated clothing.• Immediately rinse skin with plenty of water for 15-20 minutes.• Call a poison control center or doctor for treatment advice.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-451-8346 for emergency medical treatment information.	
Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.	

{Note: The first aid statements' grid format will be used if market label space permits; otherwise a paragraph format will be used.}

KEEP OUT OF REACH OF CHILDREN
DANGER

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

DANGER: Corrosive. Causes irreversible eye damage. Irritating to nose and throat. Harmful if swallowed, inhaled or absorbed through skin. Due to corrosive nature, may be harmful or fatal if swallowed. Do not get in eyes, on skin or on clothing. Avoid breathing dust. Wear goggles or face shield and rubber gloves when handling. Thoroughly wash with soap and water after handling. Remove contaminated clothing and wash contaminated clothing before reuse. Refer to Material Safety Data Sheet.

Environmental Hazards

This product is toxic to fish and other aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

Physical or Chemical Hazards

STRONG OXIDIZING AGENT. Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction, with generation of heat, liberation of hazardous gasses and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well-ventilated area. Flood with large volumes of water if necessary.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

6/7

For use in milk parlors, dairies, barns and food processing facilities.

Before sanitizing with GEA Farm Technologies [redacted], remove all gross food particles and soil by a pre-flush or pre-scrape, and when necessary, a pre-soak treatment. Then thoroughly wash surfaces or objects with a good detergent or compatible cleaner followed by a potable water rinse.

1. To sanitize milking equipment, milk tanks and CIP pipelines, prepare sanitizing solution strength recommended by local regulatory agency.
1 Ounce (28.3 grams) to 6 U.S. Gallons (22.7 Liters) provides 100 ppm available chlorine.
2. Immerse, flood or spray to thoroughly wet all surfaces. Fill piping and circulate solution for not less than 5 minutes.
3. Drain thoroughly and air dry.

In mechanical operations, prepared use solution may not be re-used for sanitizing, but may be used for other purposes, such as cleaning. In manual operations, fresh sanitizing solution must be prepared at least daily or more often if the solution becomes diluted or soiled.

HANDLING AND

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Keep product dry in tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of decomposition, isolate container, if possible, and flood with large amounts of water to dissolve all material before discarding. **Pesticide Disposal:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your state pesticide or environmental control agency or the hazardous waste representative at the nearest EPA Regional Office for guidance. **Container Disposal:** Non-refillable container; do not reuse or refill this container. Triple rinse (or equivalent) container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times. Then offer for recycling, if available, or reconditioning; if appropriate, otherwise discard in trash.

{Per PR Notice 2007-4 the batch code/lot number will appear on the label or container.}
