

16 OCT 1987

Babson Brothers Company  
2100 South York Road  
Oak Brook, IL 60521

Gentlemen:

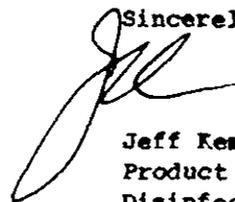

Subject: BABBAC  
EPA Registration No. 1072-17  
Your Submission Dated July 27, 1987

The amendment referred to above, submitted in connection with registration under section 3(c)(7)(A) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), is acceptable provided that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Make the labeling change listed below before you release the product for shipment bearing the amended labeling.  
  
- See the enclosed revised label.
3. Submit two (2) copies of your final printed labeling before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely yours,  

Jeff Kempter  
Product Manager (32)  
Disinfectants Branch  
Registration Division (TS-767C)

# BABBAC

**DANGER:**  
**PRECAUTIONARY STATEMENTS**  
**HAZARDS TO HUMANS AND**  
**DOMESTIC ANIMALS**

**DANGER: HIGHLY CORROSIVE.**  
**CAUSES SKIN AND EYE DAMAGE.**  
**MAY BE FATAL IF SWALLOWED.**

Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

**ENVIRONMENTAL HAZARDS:** This product is toxic to fish. Do not discharge into lakes, streams, ponds, unless in accordance with an NPDES permit. For guidance contact your regional office of EPA.

**PHYSICAL AND CHEMICAL HAZARDS:** Strong oxidizing agent. Mix only with water. Use clean utensils. Do not add to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, generation of hazardous gases and possible generation of fire or explosion. In case of fire, use water or carbon dioxide extinguisher. In case of spill, remove by absorption or decomposition do not neutralize. Store in a cool, dry, well-ventilated area. Flood with large volume of water if necessary.

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No. 1072-17 No. 43053

## Wash Sanitizer

### ACTIVE INGREDIENT:

Sodium Dichloro-s-triazinetriene Dihydrate . . . . . 28.0%

**INERT INGREDIENTS** . . . . . 72.0%

Provides 15.8% available chlorine.

**DANGER:**  
**KEEP OUT OF REACH OF CHILDREN**

**PRACTICAL TREATMENT FIRST AID:** If swallowed, feed bread soaked in milk followed by olive oil or cooking oil. Call a physician immediately. If on skin, brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists get medical attention. If in eyes, flush with cold water for at least 15 minutes. Get medical attention.

**SEE ADDITIONAL PRECAUTIONS**  
**ON SIDE PANEL.**

EPA Est. No. 1072-IL-1 EPA Reg. No. 1072-17

**NET CONTENTS: 8-4 lbs. (8-1.81Kg)**

BABBAC is recommended for use in either immersion machines to sanitize and clean eggs prior to sale. Recommended for use in sanitizing dishes, glasses, equipment and utensils including dairy and brewer utensils.

**DIRECTIONS FOR USE:** It is a violation of federal product in a manner inconsistent with its labeling. **For Egg Wash:** Dissolve one or two ounces of BABBAC in 100 to 200 ppm of warm (125° F) water. This provides 100 to 200 ppm of available chlorine respectively. For immersion treatment dip in the 200 ppm available chlorine solution, hold 10 minutes, remove and dry. With a conveyor type with the 100 ppm available chlorine solution and air dry. ~~Wash with potable water and dry.~~

**For Dishes, Glasses, Food Processing Equipment:** Dissolve one or two ounces of BABBAC per 100 (125° F) water. This provides 100 to 200 ppm of available chlorine respectively. Clean and rinse items, prior to sanitizing. Items to be sanitized in solution and hold for two minutes. ~~Remove, wash with potable water and dry. Do not~~ be used in the feed tank for immersion or spray providing two to five minutes contact time for glasses and food processing equipment and utensils. ~~Wash with potable water and dry.~~ The items are then re-

The sanitizing solutions should be used promptly as a solution is allowed to stand on a surface and tests show chlorine has not been maintained, additional BABBAC should be added to maintain a minimum concentration of 100 ppm available chlorine.

**STORAGE AND DISPOSAL:** Keep product dry in its container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of a decomposition, if possible, and flood with large amount of water to solve all material before discarding. Place in trash container or in approved landfill area. ~~Do not bury in a hole.~~

100

Drain thoroughly and air dry
