HANOEIGHT

DIRECTIONS FOR USE

Hanoeight is a contact herbicide useful for killing annual weeds and tops of perennial plants especially around mills, elevators, lumber yards, tank farms and pipe line installations. Usually good control of perennial plants is obtained by spot treatment of regrowth.

Where minimum fire hazards or residual toxicity is desired, Hanoeight should be diluted with water. Hanoeight diluted with oil, especially heavier oils, will give good residual control of annuals and better control of perennials.

For use as a water emulsifiable product where minimum fire hazard is desired, dilute one gallon of Hanoeight with 4 to 7 gallons of water. Apply this spray to thoroughly cover all weeds (from 200 to 400 gallons per acre).

Spot treat any regrowth of undesirable vegetation.

For use with oils, dilute one gallon of Hanoeight with 10 to 15 gallons of diesel fuel, fuel oil, crank case drainings, or other oil and apply as a spray to thoroughly wet weeds (about 100 to 300 gallons per acre). Spot treat all regrowth.

Do not apply to areas underlaid by roots of desirable trees and shrubs. Avoid spray drift to desirable plants.

This material may not be safe or effective under all conditions of use and particularly if directions are not followed. Since all effective herbicides are more or less toxic, every precaution should be exercised in their use.

ACCEPTED
JUL 29 1971
UNDER THE FEDERAL INSECTICIDE FUNGICIDE AND RODENTICIDE ACT FOR ECONOMIC POISON REGISTERED UNDER NO. 10112-1. SUBJECT TO ATTACHED COMMENTS.

DILUTES WITH WATER OR OIL

ACTIVE INGREDIENTS:

Pentachlorophenol	6.6%
Other Chlorophenols and Related Compounds	1.0%
Petroleum Distillate	87.0%

INERT INGREDIENTS

.....	5.4%
.....	100%

This product contains 8.0% technical pentachlorophenol as defined in Federal Specification TT-W-570.

Read the Caution Statement Carefully Before Use

SOUTHERN PRODUCTS COMPANY
1301 Heistan Pl. S. 6th & Davidson St.
Memphis, Tenn. Nashville, Tenn.

NOTICE: Since the possession, use or handling of this material involves a certain element of risk, neither Southern Products Company nor Seller makes any guaranty, warranty or representation as to the material other than the composition statement set forth on the label. The Buyer agrees that Southern Products Company and Seller shall not be responsible or liable for injury to crops, soil, animals, persons or property arising out of the possession, use or handling of this material whether in accordance with directions or claims so to be and accepts the material on these conditions.

WARNING:

Harmful or fatal if swallowed or absorbed through skin! Causes skin irritation! Do not breathe vapor or spray mist. Do not get in eyes, on skin or on clothing. Wash thoroughly after handling.

Do not take internally. Do not spray on valuable plants. Keep grazing animals away from treated areas until weeds are dead.

This product is toxic to wildlife. Birds and other wildlife in treated areas may be killed. Do not contaminate any body of water. Do not contaminate water by cleaning of equipment, or disposal of wastes.

Do not reuse empty drum. Return to drum reconditioner or destroy by perforating or crushing and buying in a safe place.

ANTIDOTE

EXTERNAL: Wash with rubbing alcohol and flush with soap and water. For eyes, flush with plenty of water for at least 15 minutes and call a physician at once. Remove and wash clothing that has absorbed the solution and wash before re-use.

INTERNAL: Antidote—Induce vomiting and call physician—Give a tablespoonful of salt in a glass of warm water and repeat until vomit fluid is clear. Give milk or white of eggs beaten with water. Have patient lie down and keep warm. Call a physician.
