

DIRECTIONS

**FLY CONTROL...** Use 1 part Malathion 20 with 10 parts deodorized kerosene to make a spray containing 2% Malathion. Apply as a spray to all places where flies rest or congregate, inside and outside dairy barns, horse and sheep barns, poultry houses, and corrals. Eliminate fly breeding sites such as manure piles, garbage heaps and city dumps. Use 1 part Malathion 20 with 10 parts deodorized kerosene and apply as a spray. Make thorough and complete coverage. Repeat application as necessary.

**FOGGING APPLICATION**

Use 1 part Malathion 20 with 10 parts deodorized kerosene for use in standard fogging machines. Completely envelop area to be treated in accordance with the equipment manufacturer's recommendations. For mosquitoes use a coarse fog. Pay particular attention to all zones of stagnation, ponds, etc. For flies envelop in a fine fog. Repeat applications as necessary.

**NOTICE TO PHYSICIANS**

Malathion upon repeated, prolonged, careless use, may cause cholinesterase inhibition. Atropine is antidotal.
