GALLONS

OPHENE 12

Disinfectant – Cleaner – Deodorant

Bactericidal • Fungicidal

Active Ingredients 26.48%
 Isopropanol, Potassium Myristate and related compounds, 4 and 6 Chloro-2-(4-Chlorophenyl) Phenol, Triethanolamine Laurate, Myristate and related compounds, Ortho-Phenylphenol, 4-Chloro-2-Cyclopentylphenol, Tetrapotassium Ethylene Diamine Tetraacetate.

Inert Ingredients 73.52%
 Water and Sodium Sulfite

CAUTION

Keep Out Of Reach Of Children

Harmful if swallowed. Avoid contact with eyes and skin. In case of contact with eyes, flush with water for 15 minutes and get medical attention if irritation persists. Wash after using. Avoid contamination of food.

Rinse empty plastic containers thoroughly with water and discard it. Do not reuse empty drum. Return to drum reconditioner or destroy by perforating or crushing and burying in a safe place.

EPA Reg. No. 1111-135-AA

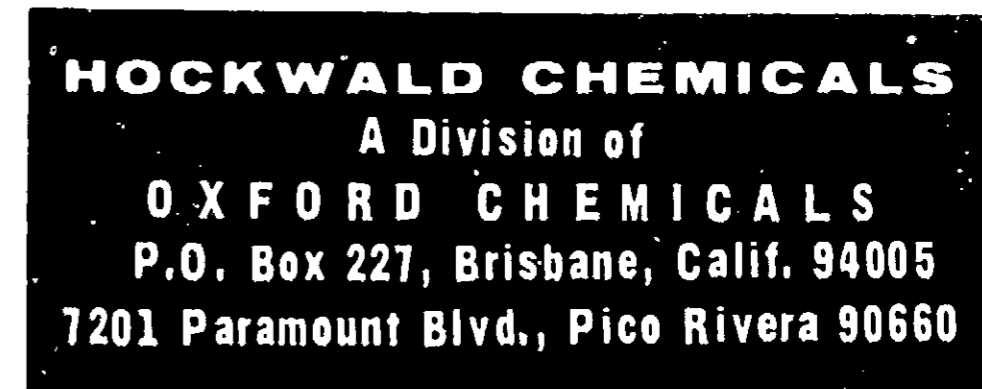

DIRECTIONS

1. For disinfecting and deodorizing floors, walls, woodwork, equipment, nurseries, rest rooms, toilet seats, urinals and bedpans: Clean surfaces to be disinfected with a suitable detergent and rinse with potable water. Mop, swab, brush or spray a solution of 1¼ oz. OPHENE 12 per gallon of water onto surfaces. Cover surfaces thoroughly with solution and allow to remain in contact with surfaces 10 minutes. For porous surfaces, increase concentration to 2½ oz. per gallon of water.

2. Disinfecting of kitchen tables, drainboards, tile, linoleum, soda fountains, refrigerator cars, and garbage cans: Clean surfaces to be disinfected with a suitable detergent and rinse with water. Mop, swab, brush, or spray a solution of 1¼ oz. of OPHENE 12 per gallon of water onto surface. Allow to remain in contact with surfaces 10 minutes. For porous surfaces, increase concentration to 2½ oz. per gallon of water. Rinse all surfaces coming in contact with food with potable water before re-use.

3. Prophylactic agent in reducing the danger of transmission of athlete's foot fungi on environmental surfaces: Prepare a solution of 1¼ oz. of OPHENE 12 per gallon of water. Mop or swab this solution onto floors and other surfaces normally contacted by the feet in locker rooms, shower stalls, and around swimming pools.

 A CONSOLIDATED FOODS COMPANY • RESPONSIVE TO CONSUMER NEEDS

PHENOGEN wets, penetrates, emulsifies and suspends soils for quick, general cleaning of a variety of surfaces, such as floors, walls, metal and painted surfaces, porcelain and tile.

PHENOGEN contains a mixture of phenols to provide complete area sanitation and effective disinfection in the use dilutions recommended.

PHENOGEN is safe to use on all surfaces not harmed by water and leaves a pleasant fragrance to the applied surface.

GENERAL DIRECTIONS

Phenogen may be used for floors, walls, public rooms, bathrooms and any hard surface that needs disinfectant cleaning or deodorant. See directions for specific uses and use dilution.

GENERAL CLEANING: Use 1 1/4 oz. per gallon of water. Mop, swab, brush or spray. Rinse with potable water.

GENERAL DISINFECTING OF ALL SURFACES: Use 1 1/4 oz. to gallon of water. Allow 10 minute contact time. Increase concentration to 2 1/2 oz. per gallon for porous surfaces. Rinse with potable water.

WAX OR SYNTHETIC FINISH STRIPPING: Use 2 to 4 oz. per gallon of water, with synthetic stripping pad, depending on wax accumulation.

TO REDUCE THE DANGER OF TRANSMISSION OF ATHLETE'S FOOT FUNGI ON ENVIRONMENTAL SURFACES: Use 1 1/4 oz. per gallon of water and mop or swab in school locker rooms, floors and other surfaces normally contacted by bare feet.
