MILLSPRAY

SPECIALLY COMPOUNDED FOR USE BY
FOOD PROCESSING ESTABLISHMENTS.

ACTIVE INGREDIENTS: 100%
Pyrethrins 0.13%, Piperonyl Butoxide Technical * 1.30%, Petroleum
Hydrocarbons 98.57%

* Equivalent to 1.04% of (butylcarbityl) (6-propylpiperonyl) ether
and to 0.26% of related compounds.

EPA Reg. No. 1111-141-AA

CAUTION

Keep Out Of Reach Of Children

Harmful if swallowed. Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. When using the product in these areas, apply only when the facility is not in operation.

Do not reuse empty drum. Return to drum reconditioner or destroy by perforating or crushing and burying in a safe place. DO NOT USE, POUR, SPILL, OR STORE NEAR HEAT OR OPEN FLAME.

NET CONTENTS _____ GALLONS

FLYING INSECTS—For the control of flies, gnats, moths, wasps, or mosquitoes, adjust the machine to deliver fine particles. Direct the spray toward the upper portion of the enclosure. Fill the air with fine mist. Apply at the rate of 1 to 2 ounces per 1000 cu. ft. of space. For best results keep all doors and windows closed 15 minutes after spraying.

Do not remain in treated areas and ventilate the area after treatment is completed.

RUNNING, CRAWLING AND HOPPING INSECTS—For the control of ants, roaches, spiders, crickets, and silverfish, adjust the machine to deliver coarse, wet particles. Spray into cracks, crevices and dark corners as well as behind baseboards, moldings, shelves, drains, sinks, pipes, recesses and similar hiding places. Apply liberally. Repeat application as necessary.

SURFACE TREATMENT—For use as a surface treatment insecticide in canneries, wineries, bakeries, mills, granaries, elevators, warehouses, to control common stored food pests (grain mites, flour mites, brown spider beetles, ptinid beetles, flat grain beetles and granary weevils); adjust the machine to deliver coarse, wet particles. Apply to floors, walls, ceilings, and corners of bins, holds, hoppers, handling rooms and general storage areas at the rate of 1 gallon per each 750 sq. ft. of surface area. Repeat application as necessary.

DESCRIPTION

For use in meat packing plants, bakeries, food processing plants, warehouses, restaurants, supermarkets, bottling plants — wherever food products are made, stored, shipped or handled. Recommended for use in hotels, motels, institutions, theaters, hospitals, transportation facilities, buses and planes. Millspray kills flies, mosquitoes, roaches, waterbugs, fleas, silverfish and spiders that come in contact with the product.

Do not apply as a space spray in food processing areas when these areas are in operation. Remove or cover exposed foodstuffs while spraying. Avoid direct spraying of foods. After spraying, thoroughly wash all surfaces on which spray may have deposited with a detergent solution and rinse with potable water.
