 A CONSOLIDATED FOODS COMPANY • RESPONSIVE TO CONSUMER NEEDS

An oil base solution for either indoor or outdoor application as a surface spray to provide residual deposits for the control of listed flying insects. The residues formed by the wet spray are effective against resting flies, gnats, wasps, and mosquitoes.

Material may also be used in spot treatments for the control of ants, roaches, spiders, silverfish, crickets, carpet beetles and brown dog ticks.

**EPA Reg. No. 1111-145**

HIS 16

L 72

# MALINEX

**RESIDUAL FLY SPRAY FOR  
INDOOR OR OUTDOOR USE**

**ACTIVE INGREDIENTS . . . . . 100%**  
Pyrethrins 0.10%, Piperonyl butoxide, technical \* 0.26% Lindane (Gamma isomer of benzene hexachloride) 0.30%, Malathion (0,0-Dimethyl dithiophosphate of diethyl mercaptosuccinate 2.00%, Aromatic petroleum derivative 6.24%, Petroleum hydrocarbons 91.10%.

\* Equivalent to 0.20% of (butylcarbityl) (6-propylpiperonyl) ether & 0.06% of related compounds.

## CAUTION

### KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Avoid breathing of spray or mist and contact with skin. Wash thoroughly after using. Do not contaminate feed or foodstuffs.

May be absorbed through skin. In case of contact, wash immediately with soap and water.

Do not reuse empty drum. Return to drum reconitioner or destroy by perforating or crushing and burying in a safe place. **DO NOT USE, POUR, SPILL OR STORE NEAR HEAT OR OPEN FLAME.**

This product is toxic to fish, wildlife and birds. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label.

### DIRECTIONS

Do not use in edible areas of food processing plants, restaurants or other areas where food is commercially prepared or stored. Do not use in serving areas while food is exposed.

Adjust the machine to deliver coarse, wet particles. Direct the spray onto surface to be treated, wetting the surface, but without excessive run-off. For flies, mosquitoes, and gnats, spray resting areas, both indoors and outdoors, such as around windows and door frames, screens, or other areas where insects tend to congregate. For listed crawling insects, spray cracks, crevices and other places where insects hide or breed. For brown dog ticks, spray local infested areas such as animal sleeping quarters. Replace animal bedding with fresh material after spraying. For carpet beetles, spray infested parts of rug or carpet, both top and bottom and the infested sections of baseboards.
