Attention: Mr. John L. Pley

Gentlemen:

Subject: Solvasan Solution
EPA Registration No. 1117-20
Application dated July 26, 1913

Your amendment proposing to delete the words "Chlorhexidine Lincetate" from the label is acceptable provided that you:

1. Submit five (5) copies of your final printed labeling before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(a). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stayed copy of the labeling is enclosed for your records.

Sincerely yours,

John L. Lee
Product Manager (31)
Disinfectants Branch
Registration Division (LS-767C)

NOLVASAN-S

For cleaning, disinfection, deodorizing

Recommended Concentration For Use

*For disinfection of inanimate objects to aid in control of canine distemper virus, equine influenza virus, transmissible gastroenteritis virus, hog cholera virus, parainfluenza 3 virus, bovine rhinotracheitis virus, bovine virus diarrhea virus, infectious bronchitis, Newcastle virus, Venezuelan equine encephalitis virus, equine rhinopneumonitis virus, feline rhinotracheitis virus and pseudorabies virus — 3 ounces (6 tablespoons) per gallon of clean water. Nolvasan S has been shown to be virucidal in vitro against rabies virus (CVS strain) in laboratory tests when used as directed above.

For disinfection of veterinary or farm premises — 1 ounce (2 tablespoons) per gallon of clean water.

Not effective against *Pseudomonas aeruginosa* or gram positive coccidial inanimate surface.*

*According to A.O.A.C. Use Dilution Test Method.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Veterinary or Farm Premises

1. Remove all animals and feed from premises, vehicles, and other equipment.
2. Remove all litter and manure from floors, walls and surfaces of barns, pens, stalls, chutes, and other facilities and fixtures occupied or traversed by animals.
3. Empty all troughs, racks, and other feeding and watering apparatuses.
4. Thoroughly clean all surfaces with soap or detergent and rinse with water.
5. Saturate all surfaces with the recommended disinfecting solution for a period of 10 minutes.
6. Immerse all halters, ropes, and other types of equipment used in handling and restraining animals, as well as forks, shovels, and scrapers used for removing litter and manure.
7. Ventilate buildings, vehicles, and other enclosed spaces. Do not reuse livestock or empty equipment until treatment has been absorbed, set, or dried.
8. Thoroughly scrub all treated surfaces, manure, and litter with soap or detergent and rinse with plenty of water before reuse.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS (AND DOMESTIC ANIMALS)

CAUTION:

May be harmful if swallowed. May be irritating to eyes or mucous membranes. In case of contact, immediately flush eyes with plenty of water. Get medical attention if irritation persists.

Environmental Hazards:

Keep out of lakes, ponds or streams. Do not contaminate water by cleaning of equipment or disposal of wastes.

STORAGE AND DISPOSAL

PROHIBITION: Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited. Do not reuse empty container.

PESTICIDE DISPOSAL: Disinfectant, mixture or residue that can not be used or chemically reprocessed should be disposed of in a landfill approved for disinfectants or buried in a safe place away from water supplies.

CONTAINER DISPOSAL: Triple rinse (or equivalent) and dispose in an incinerator or landfill approved for disinfectant containers, or bury in a safe place.

GENERAL: Consult federal, state or local disposal authorities for approved alternative procedures such as limited open burning.
