

DANGER: Do not take internally. Keep out of eyes and off skin. Avoid inhalation of dust.

Store in a cool dry, well ventilated area. Moisture contamination may liberate irritating and hazardous chlorine-containing gases. Strong oxidizer, never mix with other chemicals or foreign matter. A fire or explosion may result. Burning will produce chlorine or equally toxic gases.

This product is toxic to fish. Treated pool water should not be discharged where it will drain directly into lakes, streams or ponds.

Do not reuse container. Destroy when empty.

ANTIDOTE: Internally—feed bread soaked in milk followed by olive oil or cooking oil. **Call a physician.** In case of contact—remove excess material and flush skin or eyes with cold water for at least 15 minutes. For eyes, get medical attention. Clean contaminated clothing before reuse.

DANGER KEEP OUT OF REACH OF CHILDREN

Dust may be harmful if inhaled. May irritate skin.

See other dangers and Antidote Statement.

POOL CHLORINE CONCENTRATE

DANGER KEEP OUT OF REACH OF CHILDREN. Harmful if swallowed.
Dust may be harmful if inhaled. May irritate skin, eyes, nose and throat.
See other dangers and Antidote Statement on right panel

conditioned simply follow the directions on the Guardex Swimming Pool Conditioner package.

PROPER CHLORINATION

To properly chlorinate your pool simply add sufficient Guardex Pool Chlorine Concentrate to maintain a minimum range of 1.0 to 1.5 ppm chlorine residual. Refer to table for approximate dosage.

REMEMBER...

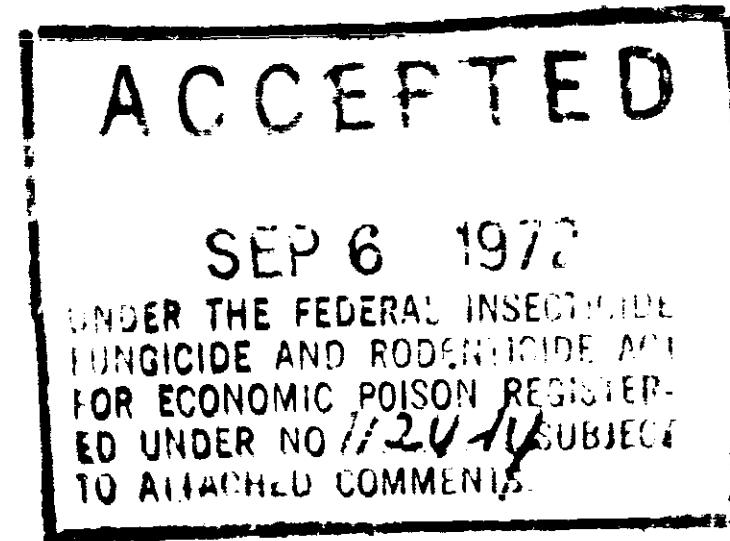

...an increase in water temperature, weather temperature or number of swimmers will cause your pool to use more chlorine. You should increase the dosage of Guardex a day or two in advance of the expected increase.
