DANGER:

Corrosive. Causes eye damage and severe skin irritation. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

FIRST AID:

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, promptly drink a large quantity of milk, egg whites or gelatin solution; if these are not available, drink large quantities of water. Avoid alcohol. Call a physicia. immediately.

NOTE TO PHYSICIAN:

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed. If persistent, convulsions may be controlled by the cautious intravenous injection of a short-acting barbiturate drug,

Rinse empty container with water before discarding.

USE DIRECTIONS

Add ½ ounce per gallon of water.

Apply SANI-TURGE 256 to walls, floors and other hard surfaces such as tables, chairs and bed frames with a cloth or mop. For heavily soiled areas, a preliminary cleaning may be required.

At ½ ounce per gallon use-level SANI-TURGE 256 is effective against Pseudomonas aeruginosa, Staphylococcus aureus, Salmonella choleraesuis and Trichophyton interdigitale, the athlete's foot fungus. Germicidal performance against the first three organisms has been confirmed by the AOAC Use-Dilution Test. Fungicidal performance against T. interdigitale was determined by the AOAC Fungicidal test.

At ½ ounce per gallon use-level SANI-TURGE 256 is virucidal against Herpes Simplex (a member of the virus family that causes infectious mononucleosis), Vaccinia (representative of the pox viruses) and Influenza A2 (the Hong Kong flu virus).

24600 SOUTH MAIN STREET CARSON, CALIFORNIA 90745

One of the major problems in hospitals, schools, institutions and industry is cross-infection. SANI-TURGE 256 has been formulated for this problem area. It both cleans and disinfects when used as directed. Its hard surface disinfecting action will reduce the hazard of cross-infection from environmental surfaces.

SANI-TURGE 256 will deodorize toilet areas, garbage cans, garbage compactor areas, behind and under sinks and counters and other places where bacterial growth can cause malodors.

*Virucidal versus Herpes Simplex Vaccinia and Influenza A2.

SANI-TURGE 256

AOAC Phenol Coefficients

Staph. aureus (AATCC No. 6538) 104.0 Salmonella typhosa (AATCC No. 6539) 40.6

EPA Reg. No. 1124-77-AA

EPA Est, 1124.CA-1

ACCEPTED

2 1974

UNDER THE FEDERAL INSECTICIDE FUNGICIDE AND RODENTICIDE ACT FOR ECONOMIC POISON REGISTER-ED UNDER NO. 1/24-

Active Ingredients	
Octyl decyl dimethyl ammonium chloride Dioctyl dimethyl ammonium chloride Didecyl dimethyl ammonium chloride Alkyl (C14 50%, C12 40%, C16 10%) benzyl	1,875% 1 .875%
dimethyl ammonium chloride Tetrasodium ethylenediamine tetrascetate	2 4200
Isopropyl alcohol	3.000%
Inert Ingredients	

DANGER: KEEP OUT OF REACH OF CHILDREN.
