

Precautionary Statements
Hazards to Humans and
domestic animals

DANGER

Keep out of reach of children. Corrosive. Causes severe eye and skin damage. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

Active Ingredients

Octyl decyl dimethyl ammonium chloride	3.750%
Dioctyl dimethyl ammonium chloride	1.875%
Didecyl dimethyl ammonium chloride	1.875%
Alkyl (C ₁₂ 50%, C ₁₂ 40%, C ₁₆ 10%) dimethyl benzyl ammonium chloride	5.000%

Inert Ingredients

87.500%

Franklin®
MAINTENANCE PRODUCTS

SANI-TURGE 256®

Highly Concentrated Germicide Based on a Unique Blend of Quaternaries Cleaner — Disinfectant — Deodorizer Fungicide — Virucide* on inanimate environmental surfaces for hospital and institutional use.

1 GALLON

FIRST AID:

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes call a physician. Remove and wash contaminated clothing before reuse. If swallowed, promptly drink a large quantity of milk, egg whites or gelatin solution, if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN:

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed. If persistent, convulsions may be controlled by the cautious intravenous injection of a short-acting barbiturate drug.

One of the major problems in hospitals, schools, institutions and industry is cross-infection. SANI-TURGE 256 has been formulated for this problem area. It both cleans and disinfects when used as directed. Its hard surface disinfecting action will reduce the hazard of cross-infection from environmental surfaces.

SANI-TURGE 256 will deodorize toilet areas, garbage cans, garbage compactor areas, behind and under sinks and counters and other places where bacterial growth can cause malodors. It prevents odors caused by mold and mildew.

ACCEPTED
SEP 25 1987
Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 1124-77

This is to replace the section "Pesticide Disposal" as shown on the label.

PESTICIDE DISPOSAL

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray or mixture of rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

DIRECTIONS FOR USE

GENERAL CLASSIFICATION

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

SANI-TURGE 256 is a proven "one-step" cleaner-disinfectant-sanitizer-fungicide-virucide in the presence of moderate amounts of organic soil.

Apply SANI-TURGE 256 to walls, floors and other hard (inanimate) non-porous surfaces such as tables, chairs, countertops, sinks and bedframes with a cloth, mop or mechanical spray device so as to thoroughly wet surfaces. For heavily soiled areas, a preliminary cleaning is required. Prepare a fresh solution daily or when old solution becomes visibly dirty.

DISINFECTION — to disinfect hard, non-porous surfaces, add ½ oz. per gallon of water. Treated surfaces must remain wet for 10 minutes. At this use-level, SANI-TURGE 256 is also virucidal and fungicidal.

SANITIZING — To sanitize porous or non-porous, non-food contact surfaces, add ¼ oz. per gallon of water.

½ OZ PER GALLON USE-LEVEL. SANI-TURGE 256 is effective against the following by the AOAC Use-Dilution test in the presence of 5% serum:

Pseudomonas aeruginosa
Staphylococcus aureus
Salmonella choleraesuis
Escherichia coli
Klebsiella pneumoniae
Enterobacter aerogenes
Salmonella schottmuelleri
Streptococcus faecalis
Shigella dysenteriae
Brevibacterium ammoniagenes

AOAC FUNGICIDAL TEST

SANI-TURGE 256 is effective against *Trichophyton mentagrophytes* (the athlete's foot fungus) when used on surfaces in areas such as locker rooms, shower and bath areas, exercise areas, dressing rooms, etc.

VIRUCIDAL PERFORMANCE

*At ½ oz. per gallon use-level, SANI-TURGE 256 is effective against the following viruses in the presence of 10% serum. Herpes simplex (a member of the virus family that causes infectious mononucleosis), Vaccinia (representative of the pox viruses), and Influenza A₂ (the Hong Kong flu virus) on inanimate environmental surfaces.

SANITIZING-NON-FOOD CONTACT SURFACES

(such as floors, walls, tables, etc.)

At ¼ oz. per gallon use level, 30 second contact time, SANI-TURGE 256 is an effective sanitizing agent in waters of up to 600 ppm hardness against *Staphylococcus aureus* and *Klebsiella pneumoniae* in the presence of 5% serum on porous and non-porous environmental surfaces.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE DISPOSAL

Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL

Plastic: Triple rinse (or equivalent). Then offer to recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

GENERAL - CONSULT FEDERAL, STATE OR LOCAL DISPOSAL AUTHORITIES FOR APPROVED ALTERNATIVE PROCEDURES SUCH AS LIMITED OPEN BURNING.

ONLY FOR SALE TO, USE AND STORAGE BY PROFESSIONAL SANITARY MAINTENANCE PERSONNEL.
