Subject: T.E.T. Disinfectant Cleaner
EPA Registration No. 1124-77
Notification Per PR NOTICE 98-10

Attn: Elaine Wagle
Regulatory Affairs Coordinator

This will acknowledge receipt of your notification for a primary brand name (TET Disinfectant Cleaner) submitted under the provisions of FIFRA section 3 © 9. Based on a review of the submitted material, the following comments apply.

The application is acceptable and the notification has been made a part of the records for this file.

If you have any questions concerning the comments in this letter, you should contact Zenobia Jones at (703) 308-6198.

Sincerely,

Velma Noble
Product Manager 31
Regulatory Management Branch 1
Antimicrobial Division (7510W)

T.E.T.[®] THESE = THOSE

Disinfectant Cleaner

Based on a Unique Blend of Quaternaries
Cleaner Disinfectant Deodorizer
Fungicide Virucide*
on Inanimate environmental surfaces for
hospital and institutional use.

ACTIVE INGREDIENTS:

Octyl decyl dimethyl ammonium chloride	3.750%
Dioctyl dimethyl ammonium chloride	1.875%
Didecyl dimethyl ammonium chloride	1.875%
n-Alkyl (C ₁₄ 50%, C ₁₂ 40%, C ₁₆ 10%)	
dimethyl benzyl ammonium chloride	5.000%
OTHER INGREDIENTS:	87.500%
TOTAL	100.000%

STATEMENT OF PRACTICAL TREATMENT:
In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression, and convulsion may be needed. If persistent, convulsions may be controlled by the cautious intravenous injection of a short-acting barbiturate drug.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER. CORROSIVE: Keep out of reach of children. Causes severe eye and skin damage. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to the label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Do not reuse empty container. Rinse thoroughly before discarding in trash. Securely wrap original container in several layers of newspaper and discard in trash.

GENERAL: Consult federal, state or local disposal authorities for approved alternative procedures such as limited open burning. Authorized by USDA (C1) for use in federally inspected meat and poultry plants.

T.E.T.® THESE = THOSE

Disinfectant Cleaner

One of the major problems in hospitals, schools, institutions and industry is cross-infection. T.E.T.® DISINFECTANT CLEANER has been formulated for this problem area. It both cleans and disinfects when used as directed. Its hard surface disinfecting action will reduce the hazard of cross-infection from environmental surfaces. T.E.T.® DISINFECTANT CLEANER will deodorize toilet areas, garbage cans, garbage compactor areas, behind and under sinks and counters and other places where bacterial growth can cause malodors. It prevents odors caused by mold and mildew.

DIRECTIONS FOR USE

GENERAL CLASSIFICATION—It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

T.E.T.® DISINFECTANT CLEANER is a proven "one-step" cleaner-disinfectant-sanitizer-fungicide-virucide* (including HIV-1) in the presence of moderate amounts of organic soil.

Apply T.E.T.® DISINFECTANT CLEANER to walls, floors and other hard (inanimate) non-porous surfaces such as tables, chairs, countertops and sinks with a cloth, mop or mechanical spray device so as to thoroughly wet surfaces. For heavily soiled areas, a preliminary cleaning is required. Prepare a fresh solution daily or when old solution becomes visibly dirty.

DISINFECTION: To disinfect hard, non-porous surfaces, add 1/2 oz. per gallon of water. Treated surfaces must remain wet for 10 minutes. At this use-level, T.E.T.® DISINFECTANT CLEANER is also virucidal and fungicidal.

SANITIZING: To sanitize porous or non-porous, non-food contact surfaces, add 1/4 oz. per gallon of water.

1/2 OZ. PER GALLON USE-LEVEL—T.E.T.® DISINFECTANT CLEANER is effective against the following by the A.O.A.C. Use-Dilution test in the presence of 5% serum.

- | | |
|-------------------------|-----------------------------|
| Pseudomonas aeruginosa | Enterobacter aerogenes |
| Staphylococcus aureus | Salmonella schottmuelleri |
| Salmonella choleraesuis | Streptococcus faecalis |
| Escherichia coli | Shigella dysenteriae |
| Klebsiella pneumoniae | Brevibacterium ammoniagenes |

A.O.A.C. FUNGICIDAL TEST: T.E.T.® DISINFECTANT CLEANER is effective against Trichophyton mentagrophytes (the athlete's foot fungus) when used on surfaces in areas such as locker rooms, shower and bath areas, exercise areas, dressing rooms, etc.

SANITIZING NON-FOOD CONTACT SURFACES (such as floors, walls, tables, etc.)—At 1/4 oz. per gallon use-level, 30-second contact time, T.E.T.® DISINFECTANT CLEANER is an effective sanitizing agent in waters up to 600 ppm hardness against Staphylococcus aureus and Klebsiella pneumoniae in the presence of 5% serum on porous and non-porous environmental surfaces.

***VIRUCIDAL PERFORMANCE:** At 1/2 oz. per gallon use-level T.E.T.® DISINFECTANT CLEANER is effective against the following viruses in the presence of 10% serum.

- | | |
|-----------------------|------------------------------------|
| *HIV-1 (AIDS Virus) | Influenza A2 (Hong Kong flu virus) |
| Herpes Simplex Type 1 | Vaccinia |

***KILLS HIV ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS** in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency virus Type 1 (HIV-1) (associated with AIDS).

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 ON SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS:

- Personal Protection:** Clean-up should always be done wearing protective latex gloves, gowns, masks, and eye protection.
- Cleaning Procedure:** Blood and other body fluids containing HIV must be thoroughly cleaned from surfaces and objects before application of T.E.T.® DISINFECTANT CLEANER.
- Disposal of Infectious Materials:** Blood, body fluids, cleaning materials and clothing should be autoclaved and disposed of according to local regulations for infectious waste disposal.
- Contact Time:** Leave surface wet for 10 minutes with 1/2 oz. per gallon use-solution.
