

T.E.T.® THESE = THOSE 

Disinfectant Cleaner

Based on a Unique Blend of Quaternaries
Cleaner Disinfectant Deodorizer
Fungicide Virucide*
on inanimate environmental surfaces for
hospital and institutional use.

ACTIVE INGREDIENTS:

Octyl decyl dimethyl ammonium chloride	3.750%
Dioctyl dimethyl ammonium chloride	1.875%
Didecyl dimethyl ammonium chloride	1.875%
n-Alkyl (C ₁₄ 50%, C ₁₂ 40%, C ₁₆ 10%)	
dimethyl benzyl ammonium chloride	5.000%
OTHER INGREDIENTS:	87.500%
TOTAL	100.000%

KEEP OUT OF REACH OF CHILDREN.

DANGER PELIGRO

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

DANGER, Corrosive. Causes irreversible eye damage and skin burns. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Avoid breathing spray mist. Wear protective eyewear, clothing and gloves (goggles or face shield). Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

FIRST AID

If in eyes, hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. If on skin or clothing, take off contaminated clothing. Rinse skin with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. If swallowed, call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. If inhaled, move person to fresh air. If person is not breathing, call 911 or an ambulance then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

STORAGE AND DISPOSAL

Keep product under locked storage, inaccessible to small children. Do not reuse empty container. Rinse thoroughly, securely wrap empty container in several layers of newspaper and discard in trash.

T.E.T.[®] THESE - THOSE

Disinfectant Cleaner

One of the major problems in hospitals, schools, institutions and industry is cross-infection. T.E.T.[®] DISINFECTANT CLEANER has been formulated for this problem area. It both cleans and disinfects when used as directed. Its hard surface disinfecting action will reduce the hazard of cross-infection from environmental surfaces. T.E.T.[®] DISINFECTANT CLEANER will deodorize toilet areas, garbage cans, garbage compactor areas, behind and under sinks and counters and other places where bacterial growth can cause malodors. It prevents odors caused by mold and mildew.

DIRECTIONS FOR USE

GENERAL CLASSIFICATION - It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

T.E.T.[®] DISINFECTANT CLEANER is a proven "one-step" cleaner-disinfectant-sanitizer-fungicide-virucide* (including HIV-1) in the presence of moderate amounts of organic soil.

Apply T.E.T.[®] DISINFECTANT CLEANER to walls, floors and other hard (inanimate) non-porous surfaces such as tables, chairs, countertops and sinks with a cloth, mop or mechanical spray device so as to thoroughly wet surfaces. For heavily soiled areas, a preliminary cleaning is required. Prepare a fresh solution daily or when old solution becomes visibly dirty.

DISINFECTION: To disinfect hard, non-porous surfaces, add 1/2 oz. per gallon of water. Treated surfaces must remain wet for 10 minutes. At this use-level, T.E.T.[®] DISINFECTANT CLEANER is also virucidal and fungicidal.

SANITIZING: To sanitize porous or non-porous, non-food contact surfaces, add 1/4 oz. per gallon of water.

1/2 OZ. PER GALLON USE-LEVEL - T.E.T.[®] DISINFECTANT CLEANER is effective against the following by the A.O.A.C. Use-Dilution test in the presence of 5% serum.

- | | |
|--------------------------------|------------------------------------|
| <i>Pseudomonas aeruginosa</i> | <i>Enterobacter aerogenes</i> |
| <i>Staphylococcus aureus</i> | <i>Salmonella schottmuelleri</i> |
| <i>Salmonella choleraesuis</i> | <i>Streptococcus faecalis</i> |
| <i>Escherichia coli</i> | <i>Shigella dysenteriae</i> |
| <i>Klebsiella pneumoniae</i> | <i>Brevibacterium ammoniagenes</i> |

A.O.A.C. FUNGICIDAL TEST: T.E.T.[®] DISINFECTANT CLEANER is effective against *Trichophyton mentagrophytes* (the athlete's foot fungus) when used on surfaces in areas such as locker rooms, shower and bath areas, exercise areas, dressing rooms, etc.

SANITIZING NON-FOOD CONTACT SURFACES (such as floors, walls, tables, etc.) - At 1/4 oz. per gallon use-level, 30-second contact time, T.E.T.[®] DISINFECTANT CLEANER is an effective sanitizing agent in waters up to 600 ppm hardness against *Staphylococcus aureus* and *Klebsiella pneumoniae* in the presence of 5% serum on porous and non-porous environmental surfaces.

***VIRUCIDAL PERFORMANCE:** At 1/2 oz. per gallon use-level T.E.T.[®] DISINFECTANT CLEANER is effective against the following viruses in the presence of 10% serum.

- | | |
|-----------------------|------------------------------------|
| *HIV-1 (AIDS Virus) | Influenza A2 (Hong Kong flu virus) |
| Herpes Simplex Type 1 | Vaccinia |

*KILLS HIV ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human immunodeficiency virus Type 1 (HIV-1) (associated with AIDS)

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 ON SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS:

Personal Protection: Clean-up should always be done wearing protective latex gloves, gowns, masks, and eye protection.

Cleaning Procedure: Blood and other body fluids containing HIV must be thoroughly cleaned from surfaces and objects before application of T.E.T.[®] DISINFECTANT CLEANER.

Disposal of Infectious Materials: Blood, body fluids, cleaning materials and clothing should be autoclaved and disposed of according to local regulations for infectious waste disposal.

Contact Time: Leave surface wet for 10 minutes with 1/2 oz. per gallon use-solution.

Authorized by USDA (CT) for use in federally inspected meat and poultry plants.
