***GUARDEX* ALGAECIDE 40**

**Guardex Algaecide 40** is used to control the growth of algae in swimming pools. For maximum effectiveness, pools containing heavy growth of algae should be cleaned prior to using **Guardex Algaecide 40**.

For pool having just visible algae growth add an initial dose of 18 to 27 fl. oz. of **Guardex Algacide 40** per 10,000 gal. of water and remove settled algae debris by cleaning.

For treatment of a freshly cleaned and filled pool, add initially 10 to 18 li. oz. of **Guardex Algaecide 40** per 10,000 gal. of water.

To maintain pools free of visible algae growth, subsequent additions of 3.5 to 7.0 fl. oz. of **Guardex Algacide 40** per 10,000 gal. of water should be made every 5 to 7 days after the initial treatment.

Uniform distribution of **Guardex Algaecide 40** throughout the water in the pool is necessary for the maximum effectiveness

**Guardex Algacide 40** is compatible with those chemicals normally used to treat pools and is effective at both acid and alkaline pH. **Guardex Algacide 40** can be used in pools treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix **Guardex Algacide 40** with concentrated dry or liquid chlorine products.

**CAUTION:** KEEP OUT OF REACH OF CHILDREN.  
Harmful if swallowed. Do not get in eyes. Avoid  
contact with skin.

**FIRST AID:** In case of contact, flush with plenty of water for at least 15 minutes. If eye irritation persists get medical attention. Avoid contamination of food.

Rinse empty container thoroughly with water and discard container. Do not reuse empty container. Destroy it by perforating or crushing. Bury or discard in a safe place away from water supplies.

**ENVIRONMENTAL CAUTIONS:** This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds, or public water. Apply this product only as specified on this label.
