(9/27/83)

A dual chain quaternary/alcohol solution impregnated in a wiping cloth.

- * Assures proper dilution strength and product effectiveness and standardized technique.
- * Greater quaternary dispersal with no hazard of cross-contamination -- quick drying.
- * Non-woven disposable cloth -- no recontamination through reuse.
- * Effective against Staphylococcus Aureus, Salmonella Choleraesuis, Pseudomonis Aeruginosa.
- * E.P.A. approved.

For use in hospitals and other critical care areas where control of the hazards of cross-contamination is required.

Use on surfaces and equipment such as tables, carts, baskets, counters, cabinets, telephones in operating rooms, intensive care and emergency units.

Use on stainless steel, formica, glass, and other hard, non-porous surfaces.

Some areas of use: Hard surfaces in: Surgery, Recovery, Anesthesia, X-Ray Cat. lab., E.R., Sterile Supply, Orthopedics, New Born Nursery, Respirational Therapy, Radiology, Central Supply.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Remove gross filth. Open, unfold, wipe to thoroughly wet surface. Allow to remain wet 10 minutes, let air dry.
