DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Burnishine Products Sanitizer Solution is a ready to use phosphate free formulation designed to provide effective cleaning, deodorizing and sanitization for hospitals, nursing homes, schools, food processing plants, food service establishments, and other institutions where housekeeping is of prime importance in controlling the hazard of cross contamination.

Burnishine Products Sanitizer Solution sanitizes previously cleaned and rinsed non-porous food contact surfaces such as tanks, chopping blocks, counter tops, drinking glasses and eating utensils.

FOOD CONTACT SURFACE SANITIZATION

Remove all gross food particles and soil from areas to be sanitized with a good detergent, pre-flush, pre-soak or pre-scrape treatment, followed by a potable water rinse. Do not dilute this product, Burnishine Products Sanitizer Solution supplies 200 ppm of active quaternary solution.

To sanitize pre-cleaned and potable water-rinsed, non-porous food contact surfaces, apply Burnishine Products Sanitizer Solution with a sponge, cloth or paper towel to thoroughly wet surface. Allow to remain wet for 60 seconds. Drain Burnishine Products Sanitizer Solution from surface. Let air dry.

To sanitize mobile items such as drinking glasses and eating utensils, immerse pre-cleaned items in Burnishine Products Sanitizer Solution for 60 seconds. Remove and drain Burnishine Products Sanitizer Solution from surface, let air dry.

Precautionary Statements

Hazards to humans and domestic animals.

Caution: Avoid Eye Contact

Statement of Practical Treatment

In case of eye contact, immediately flush with plenty of water for at least 15 minutes. If irritation persists, call a physician.

Storage and Disposal

Do not re-use empty container. Discard unused product into local drain. Triple rinse container with water and discard in trash or store for re-cycling.
