

#### PRECAUTIONARY STATEMENTS

##### Hazards to Humans And Domestic Animals

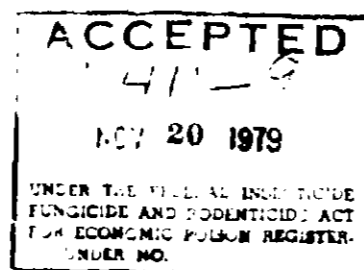

**DANGER:** Irritant. Causes skin and eye damage. May be fatal if swallowed and gets in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

##### Environmental Hazards

This product is toxic to fish. Do not discharge into lakes, streams, ponds, or public waters unless in accordance with an NPDES Permit. For guidance, contact the regional office of EPA.

##### Physical and Chemical Hazards

**Strong Oxidizing Agent:** Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reuse container. If possible, isolate container in open air or well-ventilated area. Flush with large volumes of water, if necessary.

# POWER POWDER

## SHOCK AND ALGAE CONTROL

Keep out of reach of children.

### DANGER

**Practical Treatment: (First Aid):** If swallowed, feed bread soaked in milk followed by olive oil or cooking oil. Call a physician immediately.

If on Skin: Brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention.

If in Eyes: Flush with cold water for at least 15 minutes. Get medical attention.

#### ACTIVE INGREDIENT:

Calcium Hypochlorite . . . . 65%

INERT INGREDIENTS . . . . 35%

Available Chlorine - 65%

EPA Reg. No. 11411-9

EPA Est. No. 11411-CA-1

**NET WT. 5 lbs.**

#### DIRECTIONS FOR

It is a violation of Federal law to use this product without its labeling.

#### Directions

**Shock:** 2 full cups per 2 weeks. Feed through.

**Algae:** 1/2 container per application. Vacuum Shock treat the pool water by adding one each 1,000 gallons of water. Before entering the pool, test the available chlorine residual and, if too high, allow the pool to drop to the desired range. Maintaining 0.4 available chlorine residual and a 7.2-7.6 pH for sparkling water.

#### Storage and Disposal

Keep product dry in tightly closed container in a dry, well-ventilated area away from heat or open flame. Isolate container, if possible and flood, dissolve all material before discarding. Place in approved landfill area, or bury in a safe place.

#### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent  
with its labeling.

#### Directions

**Shock:** 2 full cups per 2 weeks. Feed through skimmer only.

**Algae:** 1/2 container per application. Vacuum residue up in 24 hours.  
Shock treat the pool water by adding an ounce of Power Powder for  
each 1,000 gallons of water. Before entering the pool, check the chlor-  
ine residual and, if too high, allow the pool to stand until the residual  
drops to the desired range. Maintaining 0.6-1.0 ppm (parts per million)  
available chlorine residual and a 7.2-7.6 pH range will result in clean  
sparkling water.

#### Storage and Disposal

Keep product dry in tightly closed container when not in use. Store in a cool  
dry, well-ventilated area away from heat or open flame. In case of decompo-  
sition, isolate container, if possible and flood with large amounts of water to  
dissolve all material before discarding. Place in trash collection or dispose in  
approved landfill area, or bury in a safe place.
