 WHITE CAP PINE OIL, INC., LESTER, PA. 19113

FOR DISINFECTION

- GARBAGE PAIL**—one tablespoon per qt. of water. Removes odors, disinfects, checks fly breeding.
- TOILET**—pour 2 oz. in bowl—instantly makes you proud of your powder room.
- DIAPERS** soaked in a solution of 2 oz. per gallon of water will wash easier, cleaner and come out sweet smelling, sanitary.
- SICK ROOM**—sanitize by washing walls, floors, furniture, bedframe in a solution of 2 oz. of White Cap in a gallon of soapy water.
- BABY'S TOYS, CRIB** keep clean and sanitary with a daily washing of 2 oz. of White Cap per gallon of soapy water—rinse with clear water.

**FOR CLEANING AND DEODORIZATION ONLY—
 WHERE DISINFECTION IS NOT DESIRED**

- CLEANING FLOORS**—nothing better for melting away oil, gum or grease from floors—wood, painted, linoleum, ceramic, rubber or asbestos tile. Deodorizes. Simply add 2 oz. to your bucket of soapy water. NOTE. On rubber or asphalt tile RINSE RIGHT AWAY with clear water.
- KITCHEN SINK**—White Cap dissolves grease in water. Wipe sink with White Cap and flush with water—grease is removed better, faster than any harsh cleanser. A few drops poured down the trap each night will deodorize, dissolve grease, prevent greasy buildup.
- BATHROOM**—add 2 oz. to scrub water to best remove soapy film from tub, shower tiles, walls.
- KITCHEN STOVES**—spilled or spattered cooking grease whisks away with White Cap full strength on cloth or paper towel. Rinse.
- DOGS**—1 oz. in gallon of water. Removes Doggy B.O.
- CUFFS & COLLARS** come clean if White Cap is lightly scrubbed into dirty areas before placing garment into washer.
- BASEMENTS** smell pine fresh when wet-mopped with soapy water and 2 oz. of White Cap.
- SHOES, HANDBAGS**—scuff marks and grease removed from shoes and handbags made of shiny plastic materials. Clean with rag and White Cap. Wipe off with damp cloth.
