

# SOFTPINE™

Pine Odor (Scent) Disinfectant  
DISINFECTANT  
CLEANSER • DEODORANT

Phenol Coefficient 5 using A.O.A.C. Method vs. Salmonella typhosa.

Active Ingredients: Pine oil ..... 50%  
Alkyl (C<sub>12</sub>, 58%; C<sub>10</sub>, 28%; C<sub>8</sub>, 14%) dimethyl benzyl ammonium chloride ..... 2.5%  
Inert Ingredients: ..... 92.5%

**CAUTION: KEEP OUT OF REACH OF CHILDREN**

See Side Panel for Additional Precautions

Net Contents: One U.S. Gallon

SOFTPINE gives you the phenol coefficient, a measure of germ-killing activity, of pine oil disinfectants without their harsh aroma. It goes into instant solution when diluted with water.

SOFTPINE, while economical is highly effective against most bacterial pathogens, odor causing bacteria and fungi. It will prevent regrowth of mold and mildew on hard surfaces up to seven days and helps mask musty odors.

SOFTPINE is especially recommended for general disinfecting use and cleaning in homes, nursing homes, schools, building maintenance, hospitals, kennels and other animal shelters. It contains a powerful non-ionic detergent for better cleaning capability.

## Storage and Disposal

### Household Use Containers

(1 gallon or less) Do not re-use empty container. Rinse container thoroughly with warm water. Discard in trash collection.

### Institutional Containers

(5 to 30 gallon pails/drums) Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities. If plastic is disposed by incineration or burning, stay out of smoke.

Manufactured by White Cap, Inc.  
Lester, Pennsylvania 19113 USA

EPA REG NO. 1143-14  
EPA EST NO. 1143-TX-1

## Directions for Use

IT IS A VIOLATION OF THE FEDERAL LAW TO USE THIS PRODUCT  
IN A MANNER INCONSISTENT WITH ITS LABELING.

For general cleansing, deodorizing. Add 1 oz. per gallon of water, apply with a mop, brush or cloth so as to thoroughly wet all surfaces. Apply to floors, walls, wherever damp mopping is done. Drain used solution from the surface. Air dry. Also for animal quarters.

For disinfection of toilet seats, rest room floors, shower stalls, corridors, floors, garbage cans, locker rooms, etc., use 5 oz. per gallon of water, wet all surfaces thoroughly and keep surfaces wet for at least 5 minutes. Drain used solution from the surface. Air dry.

To prevent mold or mildew on enamel, tile, porcelain and similar hard surfaces, use 5 oz. per gallon of water and spray or otherwise apply to wet surfaces thoroughly. Surfaces should be cleaned prior to application. Repeat application in seven days to maintain control.

For laundry, use as a freshener and deodorizer, add 1/2 cup at the start of the final rinse cycle for normal size washers (approx. 15 gallons of water).

## PRECAUTIONARY STATEMENT

Hazardous to humans and domestic animals. Harmful if swallowed. Do not get in eyes. May cause severe eye irritation. Avoid contamination of food.

## FIRST AID TREATMENT

In case of eye contact, immediately flush with plenty of water. If irritation persists, get medical attention. If swallowed, do not induce vomiting. Drink promptly, a large quantity of milk. If milk not available, drink plenty of water. Avoid alcohol. Call a physician immediately.

## PHYSICAL AND CHEMICAL HAZARD

Keep tightly capped container upright in an area away from heat, sparks, and open flame.

Not Reviewed. Registrant claims to be in accordance with  
Registration of Pesticide Products Act for Phase 2  
Hazardous, Page 1-12, Addendum to New Orleans to Bureau.
