

Sani-Lemon 22 reduces the surface tension of water, improving its wettability. Minor blemishes are capable of mass reproduction in sub-visible pores, scratches and cracks of surfaces. The excellent wetting ability of Sani-Lemon 22 improves the penetration of the use solution into areas that otherwise might not be reached.

Sani-Lemon 22 is effective against a wide variety of gram-positive and gram-negative bacteria. It is also an excellent deodorant and is especially effective in controlling odors that are bacterial in origin. Has a pleasant lemon odor.

Sani-Lemon 22 mixes with water to form clear, stable use solutions. Use solutions are non-corrosive and non-staining on plastic, vinyl, synthetics, enamel, tile and most common metals.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS WARNING

Causes eye and skin irritation. Do not get in eyes, on skin or on clothing. Harmful if swallowed. Avoid contamination of food. Avoid breathing spray mist.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not discharge into lakes, streams, ponds, or public water unless in accordance with an NPDES Permit. Do not contaminate water by cleaning of equipment or by disposing of wastes.

APPLICATION INFORMATION

Select the proper dilution of Sani-Lemon 22 for your use from the directions below. Apply the use solution with a clean mop, sponge, cloth, squeegee, mechanical scrubber or mechanical spraying device.

Prepare fresh use solutions daily. Do not reuse solutions. Discard solutions when they become visibly soiled. For disinfection, thoroughly wet the surfaces to be treated. Surfaces must remain moist for at least 10 minutes to assure proper germicidal action. If desired, surfaces may then be rinsed with clean water or wiped with a clean, damp cloth to remove suspended solids.

This product may be used for cleaning and disinfecting hard, non-porous, inanimate environmental surfaces (glass, metal, glazed porcelain, linoleum, tile, smooth leather, vinyl, enameled and finished wood surfaces) on walls, floors, appliances and furnishings.

SANI-LEMON 22

LEMON ODOR DISINFECTANT - DEODORANT

*Kills Pseudomonas, Salmonella and Staphylococcus

ACTIVE INGREDIENTS

Allyl (C₃H₅, 50%, C₁₂H₂₅, 25%, C₁₈H₃₇, 14%)

dimethyl benzyl ammonium chloride

INERT INGREDIENTS

TOTAL INGREDIENTS

2.50%

97.50%

100.00%

This disinfectant is effective at a dilution of 4 oz. gal (1.2%) against Pseudomonas aeruginosa (ATCC 27812), Staphylococcus aureus (ATCC 6001), and Salmonella enteritidis (ATCC 14028) on hard surfaces.

This product may be used for cleaning and disinfecting, one-step cleaning and disinfection, or disinfection of pre-cleaned, hard non-porous, inanimate hard surfaces.

KEEP OUT OF REACH OF CHILDREN WARNING

(See additional precautions on side panel)

PRACTICAL TREATMENT (FIRST AID): In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, raw egg whites, gelatin solution or, if these are not available, drink a large quantity of water. Avoid alcohol. Call a physician immediately.

USE DIRECTIONS GENERAL CLASSIFICATION

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

CLEANING

To clean and Deodorize or to Pre-clean Prior to Disinfection. Depending on the soil level of the cleaned, use 8 to 16 oz. of Sani-Lemon 22 per gallon of water.

DISINFECTING

Hospitals, Veterinary Clinics, Nursing Homes, and Other Medically related uses: Use 1 part of Sani-Lemon 22 per 22 parts of water (5% oz./gal.) for one-step cleaning and disinfection of areas with light to medium soil. For heavily soiled areas, pre-clean as described above and then disinfect with Sani-Lemon 22 at 1 part water (4 oz./gal.).

Salon, Industrial areas, Homes, Barber shops, Restrooms, Restaurants, Food and Meat Processing (non-food processing areas), Public rooms, Other Non-Medical uses: Pre-clean surfaces. Then disinfect with 1 part of Sani-Lemon 22 in 50 parts of water (2% oz./gal.). Alternatively, clean and disinfect operation using 8% oz. of Sani-Lemon 22 per gallon of water.

For deodorizing garbage cans, garbage trucks, industrial waste receptacles, and garbage handling: It is especially important to pre-clean for the product to perform properly. Then apply a wetting concentration of 12 oz. of Sani-Lemon 22 per gallon of water.

For military control: Follow directions for hospital disinfection. Repeat treatment every seven days if growth appears.

Sani-Lemon 22 may be used through automatic floor scrubbing equipment.

This DISINFECTANT has not been tested for effectiveness against Mycobacterium tuberculosis or its related upon when tuberculocidal activity is intended.

THIS PRODUCT must not be used on food contact surfaces.

STORAGE AND DISPOSAL: Store only in tightly closed original container in a inaccessible to children and away from food or feed. Do not reuse empty container. Rinse thoroughly in trash.
