

NOTICE OF PESTICIDE☒ REGISTRATION
☐ REREGISTRATION(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

Conventional

NAME OF PESTICIDE PRODUCT
Mitra-Spray Copophos

NAME AND ADDRESS OF REGISTRANT (include ZIP code)

Leffingwell
111 South Barry Street
P.O. Box 1880
Brea, CA 92621

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Make the labeling changes listed below before you release the product for shipment:
 - a. Add the phrase "EPA Registration No. 1148-36."
 - b. Under STORAGE AND DISPOSAL, you may delete the paragraph beginning "Pesticide wastes are acutely hazardous" We regret the error in our letter of June 17.
 - c. For the nutrient uses, indicate when to make applications and stipulate if repeat treatments are needed.
 - d. For the fungicide uses, indicate that higher rates are to be used when conditions favor disease incidence.

Avoid contact with skin, eyes or clothing. In case of contact immediately flush eyes or skin with plenty of water. May cause skin sensitization in certain individuals.

Keep away from domestic animals.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic organisms. Do not apply directly to water. Drift and runoff from treated areas may be hazardous to fish and aquatic organisms in adjacent aquatic sites. Do not contaminate water when disposing of equipment washwaters.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

STORAGE:

Store product in a secure dry place and keep product dry. When opening, closing or handling open packages, or pouring product, wear goggles to prevent dusting into eyes. Spilled product should be swept up, used if clean, or disposed of on site and/or waste resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Store product only in original container. During storage, store pesticides separately to prevent cross-contamination of other pesticides, fertilizers, food and feed.

DISPOSAL:

Do not contaminate water, food, or feed by storage or disposal. Do not reuse this container. Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or if allowed by State and local authorities, by burning. If burned, stay out of smoke.

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixtures, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the nearest EPA Regional Office for guidance.

5/5
Do not apply this product in such a manner as to directly or through drift expose workers or other persons. The area being treated must be vacated by unprotected persons.

Do not enter treated areas without protective clothing until sprays have dried.

Because certain states may require more restrictive reentry intervals for various crops treated with this product, consult your State Department of Agriculture for further information.

Written or oral warnings must be given to workers who are expected to be in a treated area or in an area about to be treated with this product. When oral warnings are given, warnings shall be given in a language customarily understood by workers. Oral warnings must be given if there is reason to believe that written warnings cannot be understood by workers. Written or oral warnings must include the following information.

"CAUTION" Area to be treated with copper sulfate on (date of application). Do not enter without appropriate protective clothing until sprays have dried. If accidentally exposed, consult the Statement of Practical Treatment portion of the pesticide label for first aid recommendations.

NUTRA-SPRAY COPOPHOS is designed as a general fungicide for use on citrus in copper sensitive areas. Also recommended for use as a tree deficiency spray where the elements are the recognized deficiencies.

NOTE: In areas where there may be a severe smog, add 1 lb. of lime per 100 gallons of finished spray as an additional precaution.

USE DIRECTIONS

FUNGICIDE USES

FOR ALL CITRUS VARIETIES:

BROWN ROT: Use 3-5 lbs. COPOPHOS per 100 gallons of water. Spray skirts of trees from the ground up to 3-4 feet high in late fall as a preventative, or when disease first appears. Use up to 6 gallons of spray per tree. In addition, spray 2-4 gallons on the trunk and ground under the tree. Apply 15-50 lbs. COPOPHOS per acre. A second application may be advisable in unusually wet winters.

SEPTORIA: For septoria control apply in late fall as a preventative, or when disease first appears. Thoroughly wet all surfaces of the entire tree with 3-4 lbs. COPOPHOS per 100 gallons of water. Do not exceed 85 lbs. of COPOPHOS per acre. May also be applied as a dust by air or ground duster at the rate of 20-50 lbs. per acre.

CHEMIGATION: Do not apply this product through any type of irrigation system.

MICRONUTRIENT USES

FOR MINOR ELEMENT SPRAY ON CITRUS, AVOCADOS, DECIDUOUS FRUIT AND NUT TREES AND ORNAMENTALS:

Apply COPOPHOS at the rate of 8-30 lbs. per acre in 10-20 gallons of water by air, in 15-100 gallons of water by concentrate sprayer. By conventional ground rig, use 2-7 lbs. per 100 gallons of water.

SPREADERS: A spreader-sticker is recommended with this product.

COMPATIBILITY- NUTRA-SPRAY COPOPHOS, when used without lime, is compatible with phosphate and chlorinated hydrocarbon insecticides and miticides.

CAUTION: Maintain adequate agitation at all times. Do not use COPOPHOS in acid spray solutions or with Leffingwell STABILIZED IRON or SORBASPRAY products since injury from excessive soluble copper may result.

IMPORTANT NOTICE — Seller warrants that this product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with the directions and instructions specified on the label under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use of this product, contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.
