

A Granular Insecticide for Control of Hog Lice on All Ages of Swine

ACTIVE INGREDIENT:

Ronnel [O,O-dimethyl O-(2,4,5-trichlorophenyl) phosphorothioate]* 10.0%

INERT INGREDIENTS: 90.0%

*U. S. Patent No. 2,599,516

INSTRUCTIONS FOR USE

Apply MoorMan's De-Louser Granules at the rate of 1/4 lb. per 100 square feet over bedding or on all places where hogs sleep. The granules should be applied by sprinkling, or with a scoop or can.

Replace the treated bedding with clean, untreated bedding or exclude the swine from the treated bedding two weeks prior to slaughter.

CAUTION

KEEP OUT OF REACH OF CHILDREN

- Harmful to humans if swallowed.
- Irritating to the skin and eyes.
- Do not get in eyes.
- Avoid contact with skin.
- Avoid breathing dust.
- Prolonged or repeated contact with skin may be harmful to humans.
- Do not contaminate food, feed or water.
- Wash thoroughly with soap and water after handling, or after contact with the skin.

NOTE TO PHYSICIAN: This material is a cholinesterase inhibitor.
Treat symptomatically. Atropine is an antidote.

- Use only as recommended in instructions.
- Do not use with other products containing organic phosphates.
- Replace the treated bedding with clean, untreated bedding or exclude the swine from the treated bedding two weeks prior to slaughter.
