Subject: Labeling Notification per Pesticide Registration Notice (PRN) 98-10 – Updating  
Company Name on the Master Label  
Product Name: ADM Alliance Nutrition IGR Mineral 0.005% Tub  
EPA Registration Number: 1157-51  
Application Date: 04/16/2018  
OPP Decision Number: 540268

Dear Ms. Steinkamp:

The U.S. Environmental Protection Agency (EPA) is in receipt of your application for notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Biopesticides and Pollution Prevention Division (BPPD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The labeling submitted with this application has been stamped “Notification” and will be placed in our records. You must submit one (1) copy of the final printed labeling with the modifications.

Should you wish to add/retain a reference to your company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and is subject to review by the EPA. If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements the EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the EPA find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA-approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance Assurance.

**PRECAUTIONARY STATEMENTS  
ENVIRONMENTAL HAZARDS**

Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Make sure cattle are not starved for minerals or salt by providing them before feeding ADM Alliance Nutrition IGR Mineral 0.005% Tub. Then remove salt or mineral supplement and place ADM Alliance Nutrition IGR Mineral 0.005% Tub before cattle as the only source of minerals. Start feeding this product continuously in the spring before horn flies appear on cattle and continue feeding until cold weather restricts horn fly activity.

The recommended consumption of ADM Alliance Nutrition IGR Mineral 0.005% Tub is 1.0 lb to 2.0 lb per 100 lb of body weight per month. Protect this product from the rain.

If consumption of this product is above 1.0 lb to 2.0 lb per 100 lb of body weight per month, reduce the number of feeding locations where this product is fed or relocate this product in areas less frequented by cattle.

If consumption of this product is below 1.0 lb to 2.0 lb per 100 lb of body weight per month, increase the number of feeding locations where this product is fed or relocate this product in areas more frequented by cattle.

{Consumption of this product by sheep or goats may result in copper toxicity} {This feed should be used only in accordance with the directions on the label}{Use only as directed}{Feeding added selenium at levels in excess of XXppm in the total diet is prohibited.}

**STORAGE AND DISPOSAL**

Do not contaminate water or food by storage or disposal.

**PESTICIDE STORAGE:** Store in a cool, dry area.

**PESTICIDE DISPOSAL:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**CONTAINER DISPOSAL:** Nonrefillable container. Do not reuse or refill this container. Completely empty the tub into application equipment. Then dispose of tub in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.
