Subject: Labeling Notification per Pesticide Registration Notice (PRN) 98-10 – Add alternate brand name
Product Name: ADM 0.014% IGR
EPA Registration Number: 1157-56
Application Date: 03/03/2022
OPP Case Number: 00344494

Dear Ms. Steinkamp:

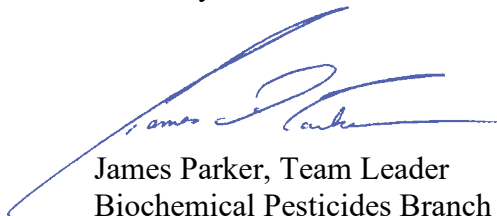

The U.S. Environmental Protection Agency (EPA) is in receipt of your application for notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Biopesticides and Pollution Prevention Division (BPPD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The labeling submitted with this application has been stamped “Notification” and will be placed in our records. The alternate brand name *AMPT™-A Garlicum 0.014% IGR Minerals®* has been added to the product’s records. You must submit one (1) copy of the final printed labeling with the modifications.

Should you wish to add/retain a reference to your company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and is subject to review by the EPA. If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements the EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the EPA find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA-approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance Assurance.

If you have any questions, please contact Susannah Powell via email at powell.susannah@epa.gov

Sincerely,

A handwritten signature in blue ink, appearing to read "James Parker", is written over a large, sweeping blue line that extends from the left side of the page towards the right.

PRODUCT NO. XXXXX

~~ADM 0.014% IGR~~
AMPT-A Garlium 0.014% IGR Minerals
DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SELF FEEDING

Make sure cattle are not starved for minerals or salt by providing them before feeding ~~ADM 0.014% IGR~~ AMPT-A Garlium 0.014% IGR Minerals. Then remove salt or mineral supplement and start continuous feeding of this product in the spring before horn flies appear on cattle and continue feeding until cold weather restricts horn fly activity.

The recommended consumption of this product is 0.357 lb to 0.714 lb per 100 lb of body weight per month. Place this product near watering or loafing areas and provide one feeder for each 15 to 20 head. Put out only a 5-7 day supply of this product at one time and protect it from rain.

If consumption of this product is above 0.714 lb per 100 lb of body weight per month, reduce the number of feeding stations or relocate feeders in areas frequented less by cattle.

If consumption of this product is below 0.357 lb per 100 lb of body weight per month, increase the number of feeding stations or relocate in areas more frequented by cattle.

Mixed Ration Feeding (hand-feeding)

When cattle are on supplemental feeds or if mineral consumption is not as recommended, mix ~~ADM 0.014% IGR~~ AMPT-A Garlium 0.014% IGR Minerals with other non-medicated feeds and feed daily to provide 0.357 lb to 0.714 lb of this product per 100 lb of body weight per month. Start continuous feeding in the spring before horn flies appear on cattle and continue feeding until cold weather restricts horn fly activity

{Consumption of this product by sheep or goats may result in copper toxicity} {This feed should be used only in accordance with the directions on the label}{Use only as directed}{ This feed contains a source of non-protein nitrogen. The equivalent protein supplied by non-protein nitrogen should not exceed 1/3 of the crude protein of the total ration.}{Feeding added selenium at levels in excess of XX ppm in the total diet is prohibited.}

STORAGE AND DISPOSAL

Do not contaminate water or food by storage or disposal.

PESTICIDE STORAGE: Store in a cool, dry area.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.
