Dayton, NJ 08810

JAN 19 1989

Dear Mr. Baker:

Subject: Twin Light Crabgrass Preventer with Tupersan
EPA Registration No. 1159-159
Re: Label Amendment
Your Submission Dated November 15, 1988

The labeling referred to above submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, is amended is acceptable provided the following Environmental Hazard statement is revised to read:

"Do not contaminate water when disposing of equipment washwater."

Delete the old Environmental Hazard statement - "Do not contaminate water by cleaning of equipment or disposal of wastes".

Please submit five (5) copies of your final printed labeling incorporating this amendment before you release the product for shipment. A stamped copy is enclosed for your records.

Sincerely,

Robert L. Taylor
Product Manager (25)
Fungicide-Herbicide Branch
Registration Division TC-1670

1. The first step in the process of determining the value of a property is to identify the property and its location. This is done by obtaining a plat map of the area and identifying the property's location on the map. The plat map is a legal document that shows the boundaries of the property and its location relative to other properties in the area. It is typically filed with the local government's public works department.

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

1. The first step in the process is to identify the problem or issue that needs to be addressed. This involves gathering information and understanding the context of the problem.

1. 1949年 10月 1日 中华人民共和国成立

5. *Staphylococcus aureus* (ATCC 12228) was grown in 10 ml of TSB medium in a 100 ml Erlenmeyer flask at 37°C for 24 h. The cells were harvested by centrifugation at 10,000 g for 10 min and washed with distilled water. The cells were then resuspended in 10 ml of distilled water and the suspension was adjusted to an optical density of 0.5 at 600 nm.
