DIRECTIONS

LAWNS: Apply with a Seed-Fertilizer spreader at the rate of 2 pounds per 1,250 square feet, 8 pounds per 5,000 square feet to control:

JAPANESE BEETLE, Oriental Beetle, Asiatic Beetle Larvae and White Grubs - **SOD WEBWORMS.**

ANTS, Chiggers, Earwigs, Mole Crickets, Spiders, Ticks, Cutworms, Centipedes, Grasshoppers and Armyworms.

NOTE: Following treatment, sprinkle the lawn thoroughly with water to wash the insecticide into turf. Do not allow children or pets on treated lawn until the insecticide is washed off the grass into the soil and grass is completely dried. Birds feeding over treated lawn may be harmed.

SOIL APPLICATION: For Cutworms, Earwigs, Millipedes, Leaf Eating Ants, Sow bugs and Mole Crickets, dust the ground around Tomatoes, Beans, Peas (only at time of planting or transplanting) and Flowers, use 1 pound per 500 square feet. Repeat as necessary at 10 day intervals.

For control of Japanese Beetle Grubs, Root Maggots, Wireworms and White Grubs on Cabbage, Onions and Radishes, use 1 pound per 1000 square feet and work the product into top 2 to 3 inches of soil when the seed bed is being prepared.

CAUTION

**KEEP OUT OF REACH OF CHILDREN
AND DOMESTIC ANIMALS.**

Avoid inhalation.

Avoid contact with skin, eyes and clothing. In case of skin contact, wash with soap and water; For eyes, get medical attention.

Avoid contamination of feed and foodstuffs.

Use this product only as specified in the directions.

Do not use on crops to be fed to dairy animals or to animals being finished for slaughter.

FISH and WILDLIFE CAUTION

Toxic to fish and wildlife. Do not contaminate any body of water nor apply when conditions favor runoff from area treated.
