NON-WARRANTY

Because of conditions beyond their control, nei-
ther Midland Cooperatives, Inc. (hereinafter
called the Manufacturer) nor any intervening
broker, distributor, dealer or agent, makes any
representation or warranty, expressed or im-
plied, with respect to results or safety from the
use or handling of the above-mentioned material,
and the buyer and user of this material assume
all risk of loss, damage or injury which may result
from the use or handling of this material, un-
less it is used in accordance with directions on
this label.

No employee, salesman or other representative
of the Manufacturer is authorized to alter or
vary the terms or conditions herein stated, nor
to make any representations or promises at
variance with such terms and conditions.

GENERAL INFORMATION

PREPARATION OF THE SPRAY: Fill the spray tank
with half the required amount of water, then add the
recommended amount of MIDLAND A-40 with agita-
tion and continue filling the spray tank with water.
Use enough water per acre to give uniform coverage.
The amount of water required for low volume ap-
plications may vary from 10 to 25 gallons per acre.
For high volume applications 100 gallons, or more,
of water will be needed for good coverage. In
any case, use the same amount of 2, 4-D recom-
mended per acre.

CAUTION

Although MIDLAND A-40 is non-volatile, care must
be used to prevent spray drift from coming into
direct contact with vegetables, flowers, grapes, fruit
trees, ornamentals, cotton, or other desirable plants
sensitive to 2, 4-D. Coarse sprays are less likely to
drift.
