

Cross-infection is of major housekeeping concern not only in hospitals, but in schools, institutions, and industry. **THIS DISINFECTANT CLEANER** is formulated for this problem area. It both cleans and disinfects effectively and is virucidal when used as directed. Its hard surface disinfecting action will reduce the hazard of cross-infection.

This **DISINFECTANT CLEANER** is an extremely effective one-step sanitizer. It cleans and sanitizes in waters up to 80 ppm hardness. This hard water tolerance is in excess of most potable waters and will insure complete sanitizing action when used as directed.

Two ounces of **This DISINFECTANT CLEANER** per gallon of water will deodorize bathrooms, garbage storage areas, and other areas where bacterial growth can cause mal odors.
