HOW TO APPLY ETHALAIRE JR-4

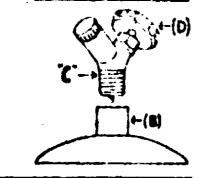

FLIES, MOSQUITOES, WASPS, GNATS: Ascertain cubic feet of space to be treated. Clase doors and windows. Pointing nozzle upward, direct the aerosol mist to all parts of the raom, especially windows and other light sources which attract these insects. Keep nozzie in constant motion at least 36 inches from fabrics. Apply for 2 seconds per 1,000 cu. ft. of space. Spraying closer than 36 inches or longer than tudicated may cause stains on fabrics, furs and other materials. Keep room closed 15 minutes after each treatment.

FLYING ADULT MOIHS: Ascertain cubic feet of space to be treated. Treat all suspected enclosures arranging clothing and other articles so that the foggy mist can circulate freely around them. Keep the nozzle in constant motion at least 36 inches away from the articles. Apply for 2 seconds per 1,000 cubic feet of space and close the treated area for 45 minutes or more. Spraying closer or longer than as directed above, or more often than bi-weakly, may cause stains on fabrics, furs and other materials. Lethalaire JR-4 is not a moth proofing agent and will not destroy uncontacted adult moths or moth worms.

SILVERFISH, ANIS, ROACHES and CRICKETS: Ascertain square feet of space to be treated. Open all doors, cabinets, closets, etc. Direct the mist toward insects, into cracks, crevices, and traits, on door sills and window frames. For initial cleanup, apply for 10-15 seconds per 100 square feet of floor space. Follow up with periodic applications as a space aerosol at 3 to 5 seconds per 1,000 cu. ft. of space. Close room for one hour. Repeat treatment as necessary. Do not spray directly on clothes, fabrics or other materials.

How To Assemble And Operate The JR Package And Applicator Valve Assembly "C"

- (1) Remove cap (A) from cylinder spud (B).
- (2) Be sure Applicator Valve is closed.
- (3) Insert Applicator Valve Assembly "C" in cylinder spud (B) and screw down hand tight.
- (4) DO NOT USE CYLINDER IN INVERTED POSITION.
- (5) Keep handwheel (D) in upward position.
- (6) One half turn releases flow.
- (7) After container is empty, remove Applicator Valve "C" for reuse.

Certified for use as an article of stores on board vessels. This
