

MADE IN U.S.A. BY VIRCHEM  
 CONTROLLED CHEMICAL

ACTIVE INGREDIENTS:

Alkyl (4% C <sub>12</sub> , 50% C <sub>14</sub> , 10% C <sub>16</sub> ) dimethyl benzyl ammonium chloride	25.0%
His (tri-n-butyltin) oxide	5.0%
Trisodium salt of N-(2-Hydroxy-ethyl) ethylenediaminetriacetic acid	2.0%
INERT INGREDIENTS	68.0%
Total	100.0%

**DIRECTIONS:** This product is intended for industrial use only. Do not apply to potable water or domestic water systems. For algae and slime control in recirculating cooling water systems, use about 1 to 2 pints of VIRCHEM 508 for each 1000 gallons of water in the system. For maximum benefit, stop bleed-off overnight following treatment addition. Repeat treatment as often as necessary - depending upon the extent of growth and the rate of new growth. Consistent use will provide maximum results. For continuous treatment after initial "sluz" dosage, feed at a rate of 1 to 3 ounces per 1000 gallons of total bleed-off. Take adequate measures to prevent clogging of strainers when heavy growths are dislodged. Heavy growths should be physically removed from the system before adding treatment.

After using, wash hands, forearms and any other parts of the body which may have contacted this chemical. Flush empty containers with water and place in suitable waste containers. Spills should be flushed to waste drain with water.

**WARNING (18 point) KEEP OUT OF REACH OF CHILDREN 12 pt.** Harmful if swallowed. Do not get in eyes, on skin or clothing. In case of contact, remove contaminated clothing and immediately flush skin with water, then wash with soap and water. If irritation persists get medical attention. Wash contaminated clothing before reuse. In case of contact with eyes, immediately flush with water and get medical attention.

All data, statements and recommendations contained herein are based upon the best information available and are believed to be reliable. However, no warranty, either express or implied, is made concerning the application of this product since the customer's use cannot be controlled. Statements concerning the use of this product should not be construed as suggestions, recommendations or inducements that it be used in violation of any patent rights or in violation of any applicable laws or regulations.
