

1187-107

PROFESSIONAL INSECTICIDE

DIRECTIONS FOR USE

This professional insecticide can be used in bakeries, food plants, restaurants, schools, hotels, motels, office buildings, hospitals and food handling plants.

Remove protective cap. Holding dispenser upright, point valve in desired direction and press dispenser button to spray.

Mosquitoes, Flies, Gnats: Close all doors and windows. Direct the spray to all parts of the room. Fill the room with mist, then leave the treated area. Keep room closed for at least 15-30 minutes. Ventilate the room when treatment is completed.

Wasps: Application should be made in late evening when insects are at rest. Spray liberally into hiding and breeding places containing primary insects as possible. Repeat as necessary.

Roaches, Water Bugs: Spray thoroughly into hiding places such as cracks, crevices, under appliances, around pipes and sinks, under refrigerators, baseboards and other edge areas. Spray directly on insects where possible. Repeat as necessary.

CAUTION

Use only if you are using a pump when plant is not in operation. Hands should be removed or covered during treatment. All food processing surfaces should be covered or treated with a protective coating. In hospital patient rooms, remove patients from room prior to treatment. Patients can be re-admitted for 2 hours after spraying. Do not return patients to room until after ventilation.

Avoid contamination of food and feedstuff. Cover nearby fishbowls. Remove all pets from area to be treated. **WARNING:** Contents under pressure. Do not puncture or throw contents into fire or incinerator. Do not expose to temperatures above 100°F.

Virginia Chemicals Inc.

PRO-CIDE III

Kills: Mosquitoes, Flies, Gnats, Wasps, Roaches and Water Bugs

ACTIVE INGREDIENTS

1-(2,5-Benzyl-3-isopropyl-methyl-2-thioethyl)-3-(2-methylpropyl)-Cyclopropylisocyanate	95.00%
