DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

IN NON-RESIDENTIAL FOOD-HANDLING AREAS OF: Food processing plants, schools, taverns, grocery stores, hotels, motels, bottling plants, canneries, bakeries, cafeterias, hospitals, restaurants and in milk handling areas of milk plants. Remove protective cap. Holding dispenser upright, point valve in desired direction and press dispenser button to spray.

MOSQUITOES, FLIES, GNATS, SMALL FLYING MOTHS: Close all doors and windows. Direct the spray to all parts of the room. Fill the room with mist, then leave the treated area. Keep room closed for at least 15-30 minutes. Do not remain in treated area. Ventilate the area after treatment is completed. Sweep up and destroy fallen insects. Repeat treatment as necessary.

WASPS: Application should be made in late evening when insects are at rest. Spray liberally into hiding and breeding places, contacting as many insects as possible. Repeat as necessary.

STORAGE AND DISPOSAL

Storage: Do not use or store near heat or open flame.

Disposal: Do not reuse empty container. Wrap container and put in trash collection.

PRECAUTIONARY STATEMENT

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if swallowed. Avoid breathing vapors or spray mist. Avoid contact with skin, eyes or clothing. In case of contact immediately flush eyes or skin with plenty of water. Get medical attention if irritation persists.

Avoid contamination of feed and foodstuffs. When using this product in food processing plants, food should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. When using this product in those areas, apply only when the facility is not in operation. Remove pets, birds and cover fish aquarium before spraying.

NOTE: When used in hospitals, patients should be removed prior to treatment. Wait two hours before patients are returned.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.
