VIRGINIA CHEMICALS INC.
PORTSMOUTH, VIRGINIA 23703

EPA Reg. No. 1187-128

EPA Est. 1187-VA-1

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
Use on bottles, cans, kegs, food plants, containers, lockers, flower-spraying parrots, restaurants, cafeterias, bars, greasy
traps, sinks, hospitals, institutions, moviehouses, houses, Emily trill and railroad cars.

Safe against roaches: Fleas, gnats, clustered floor beetles, red floor beetles, smoky brown beetles, spider beetles, angoumois
grain moth, anthonomus flour moth, meal worms, cigarette beetle, drugstore beetle, cheese weevils, olive weevils,
granary weevils, rug weevils, flour weevils, crickets, cicadas, mosquitoes, spiders and small flying insects.

HOW TO USE: Close and dry surfaces, shut off air conditioners and fans, prior to treatment. Place can upright on floor in
center of area to be treated. For best use, place on a table or stand to best results. A newspaper should be placed under the
nozzle to prevent spraying accidents. Spray into open areas over top of furniture. When discharge of airstream starts,
close eyes as tightly as possible and leave closed for at least 30 seconds. Repeat treatment as necessary. The active contents
of this can are sufficient to treat a space of 5000 cubic feet of unobstructed space. Do not remain in treated area and
ventilate the area after treatment is completed. Sweep up and destroy fallen insects.

FLEAS: Thoroughly spray infested areas, pet beds, resting quarters, nearby cracks and crevices along and behind
baseboards, molding, window and door frames, and located areas of floor and floor covering. Fresh bedding should be
placed in animal quarters following treatment. Continued treatment of animals with an approved flea preventative is
recommended. Repeat treatment as needed.

STORAGE AND DISPOSAL

Storage: Do not use or store near heat or open flame.
Disposal: Do not reuse empty container. Wrap canister and put in trash collection.

PRECAUTIONARY STATEMENT HAZARD TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Warning of accidental or absorbed through skin. Avoid breathing vapors or spray mist. Avoid contact with skin and eyes. In
case of contact, immediately flush eyes or skin with plenty of water. Obtain medical attention if irritation persists.
Do not apply directly to food. In commercial food handling facilities, cover or remove any food and food processing
equipment during application. Do not apply while food processing is underway. Avoid spraying on meat packing plants,
lockers and other food processing plants, parts of equipment, benches, chairs, etc. where exposed food will be handled
with potable water. In the home, all food processing surfaces and utensils should be covered during treatment, or thoroughly
washed before use.

Remove pets, birds and other fish specimens before spraying.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not puncture or incinerate container. Exposure to tempera-
tures above 130°F may cause bursting.
