Subject: PEPCO D-C
EPA Registration No. 1190-40
Amendment Dated: November 13, 2008
EPA Received Date: November 19, 2008

Dear Mr. Sempkowski,

The following amendment submitted in connection with registration under section 3(c)(7)(a) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) as amended, is acceptable with comments.

Proposed Amendment

- Revise the label

Comments

Make the following revisions to your labeling:

1. Revise the following statements located in the "For Cleaning" directions to reflect the Mandatory Language of PR Notice 2000-5.

"Lightly soiled areas must be cleaned with a solution containing 1 oz. of product per gallon of water."
 "Heavily soiled areas must be cleaned with a solution of 2 to 3 oz. of product per gallon."

2. Revise the species identification for *Salmonella choleraesuis* to *Salmonella enterica* because it has been changed by ATCC. Refer to www.atcc.org

TE	2/11/08						

3. Since your product bears the disinfectant claim, you must have separate directions for the Agency does not recognize non-public health claims and a public health claims joined together in same section. Relocate the following to the Hospital Disinfection section.

"At 2oz. per gallon, this product is effective against *Pseudomonas aeruginosa*, *Staphylococcus aureus* and *Salmonella enterica*."

4. Revise the following surfaces located in the Hospital Disinfection directions and the General Purpose Disinfection directions to qualify them as hard non-porous surfaces. Refer to DSS/TSS 15.

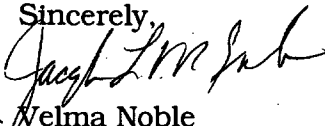

"First assure that all areas(such as walls, floors, chairs, countertops, **glazed** tile, **glazed** porcelain, metal) are thoroughly cleaned as above to remove organic soils such as blood, fecal matter or exudates"

"Then apply a solution containing 2 oz. of product per gallon of water to walls, floors and other (inanimate) non-porous surfaces such as tables, chairs, countertops, **glazed** tile, **glazed** porcelain, metal with a cloth or mop."

General Comments

A stamped copy of the accepted labeling is enclosed. Submit one (1) copy of your final printed labeling before distributing or selling the product bearing the revised labeling

Should you have any questions or comments concerning this letter, please contact Velma Noble at (703) 308-6233

ACCEPTED
with COMMENTS
in EPA Letter Dated:
FEB 11 2008

Under the Federal Insecticide,
Fungicide, and Rodenticide Act as
amended, for the pesticide,
registered under EPA Reg. No. 1190-40

This product is a detergent and disinfectant designed to improve housekeeping in commercial establishments, schools, institutions, hospitals and industry by reducing bacterial contamination, attendant mal odors and filth in these areas.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

This product is not for use on medical device surfaces.

FOR CLEANING: First remove gross filth and heavy soil deposits. Lightly soiled areas should be cleaned with a solution containing 1 oz. of product per gallon water. Rinse cleaned area with fresh water. Heavily soiled areas should be cleaned with a solution of 2 to 3 oz. of product per gallon. Rinse cleaned areas with fresh water.

At 2 oz. per gallon this product is effective against *Pseudomonas aeruginosa*, *Staphylococcus aureus*, and *Salmonella choleraesuis*.

HOSPITAL DISINFECTION: First assure that all areas (such as walls, floors, chairs, countertops, tile, porcelain, metal) are thoroughly cleaned as above to remove organic soils such as blood, fecal matter or exudates. Then disinfect hard non-porous surfaces in medical areas by wiping, brushing or mopping with a fresh solution containing 2 oz. of product diluted to one gallon with soft water. Treated surfaces must remain wet for 10 minutes. Let air dry. Prepare a fresh solution daily or if solution becomes visibly dirty.

GENERAL PURPOSE DISINFECTION: In Schools, Industry and non-medical institutions, first clean area as directed. Then apply a solution containing 2 oz. of product per gallon of water to walls, floors and other (inanimate) non-porous surfaces such as tables, chairs, countertops, tile, porcelain, and metal with a cloth or mop. Treated surfaces must remain thoroughly wet for 10 minutes. Let air dry. Prepare a fresh solution daily or if solution becomes visibly dirty.

Pr
Hazards to

CORROSIVE. Causes severe eye irritation. Causes severe skin irritation. Causes severe clothing damage. Wear goggles or face shield. Avoid contact with skin. If swallowed. Avoid contact with skin.

ENVIRONMENTAL HAZARD. Avoid discharge into lakes, streams, ponds, estuaries, or other bodies of water. Observe all requirements of a National Pollution Discharge Elimination Act permit. The permitting authority has been determined. Do not discharge into any effluent containing this product. Do not discharge into any sewage treatment plant authorized by the nearest EPA Regional Office of the EPA.

STORAGE.
• Do not contaminate water, food, or feed.
• Open dumping is prohibited.

PESTICIDE DISPOSAL: Pesticide mixtures, excess pesticide, spray mixture, or other material cannot be disposed of by ordinary household waste. Pesticide or Environmental Contaminant should be disposed of at the nearest EPA Regional Office.

CONTAINER DISPOSAL: Containers should be recycled for recycling or reconditioning (if approved by other approved State and Local authorities). Then offer for recycling, sanitary landfill, or incinerate, if allowed. Stay out of smoke. **FOR 1 GALLON:** can, bucket). Wrap (container)
