

PM 31, 1190-491

ACCEPTED
AUG 28 1980
Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under 1190-49
EPA Reg. No.

This disinfectant reduces the surface tension of water, improving its wettability. Microbes are capable of mass reproduction in sub-visible pores, scratches and cracks of surfaces. The exceptional wettability of this product improves the penetration of the use solution into areas that otherwise might not be reached.

This disinfectant is effective against a wide variety of gram-positive and gram-negative bacteria. It is also an excellent deodorant and is especially effective in controlling odors that are bacterial in origin. Has a pleasant mint odor.

This disinfectant mixes with water to form clear, stable use solutions. Use solutions are non-corrosive and non-staining to plastic, vinyl, synthetics, enamel, tile and most common metals.

USE DIRECTIONS

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

FOR RESTROOMS AND GENERAL DISINFECTION of hard, non-porous surfaces (glass, metal, plastic, glazed porcelain, linoleum, tile, leather, vinyl, enamel and finished wood surfaces) on walls, floors, appliances and furnishings in industrial areas.

CLEANING: Whenever practical, flush away gross soils with water. For cleaning use 2 to 8 ounces of this product per gallon of water. Cleaning may be accomplished with a clean mop, sponge, squeegee, wet vacuum system, or a mechanical spraying device. After cleaning, remove suspended soils with a clear water rinse, vacuum pickup or by wiping with a clean mop, sponge, squeegee or cloth.

DISINFECTING: Before disinfecting, pre-clean surfaces as directed above. Then, prepare 4 ounces of this product per gallon of water and thoroughly wet the surfaces to be disinfected. The disinfecting solution must contact the surface for 10 minutes for proper disinfection. If desired, the surfaces may then be rinsed with clear water or wiped with a clean damp cloth.

M.G.C.
MINT ODOR DISINFECTANT • DEODORANT
For Industrial and Commercial Use Only

ACTIVE INGREDIENTS:	
Allyl (C14, 88%; C16, 28%; C12, 14%) dimethyl benzyl ammonium chloride	2.50%
