DANGER POISON

KEEP OUT OF REACH OF CHILDREN

the first time that the *Spelaeobius* species have been found in the Americas.

14

With 24 hours the gain of the former was 100%.

This product is toxic to birds and fish. Do not let it get into water where fish or birds may be killed. Keep out of lakes, ponds, streams, rivers, oceans, and other bodies of water where fish and birds live. Do not apply when conditions favor drift into areas treated. Do not contaminate water supplies, streams, ditches, irrigation equipment, drainage ditches, wells, springs, or any body of water.

This document is intended to serve as a guide for the protection of middle managers. Protective information can be obtained from your cooperative Agricultural Extension Service.

DIRECTIONS FOR USE

EQUIPMENT

After and before the test, the animal was allowed to move about in a sufficient area to satisfy its desire for adequate exercise. Use of the galvanic relaxant may thus permit the animal to move about freely, and so as to keep its body in a normal position. This may be of considerable advantage in the study of the effects of drugs on the nervous system. It may also be of value in the study of the effects of drugs on the heart.

the first time in the history of the world.
