### DIRECTIONS

**FOR EACH INSECT BELOW:** Remove cap. Point opening of valve away from you, and press. Spray 3 feet away from surfaces. Repeat as necessary.

**FLIES, MOSQUITOES, FLYING MOTHS, GNATS, HORNETS, WASPS:** Close all doors and windows. Spray towards center of room in large circular motion. Spray until room is filled with mist. Keep room closed. Return after 10 minutes and air room.

**ROACHES, WATERBUGS, SILVERFISH:** Spray directly at insects. Spray cracks, crevices, behind sink, cabinets, objects attached to wall, and dark damp hiding places. Turn out pilot light and spray stove. (Turn on pilot light after 10 minutes.) **FLEAS:** Spray floors and animal quarters. Do not spray on animals. **ANTS:** Spray trails, and directly on ants. Windows may be left open when spraying and after spraying.

**BEDBUGS:** Take bed apart. Spray mattress seams and tufts, bed frame, springs, cracks in baseboards, floors. Windows may be left open when spraying and after spraying.

**CAUTION:** The contents of this can are under pressure. Keep can at room temperature and away from radiators, direct sunlight, stoves, hot water, fire incinerator, or other heat over 100° F. since exposure to high temperature may cause bursting. Do not puncture can. Harmful if swallowed. Avoid breathing spray mist. Avoid skin contact. Wash thoroughly after using. Do not spray near food feed products, cooking utensils, fish bowls, bird cages, pets. Keep out of reach of children. Use in ventilated room. Do not allow spray on plastics, asphalt tile, wallpaper, or furniture.
