FLYING MOTHS • FLIES • MOSQUITOES
ROACHES • WATERBUGS • ANTS • FLEAS
SILVERFISH • BEDBUGS • AND GNATS

DIRECTIONS

WARNING: Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 120 F. may cause bursting. Never throw container into fire or incinerator.

CAUTION AROUND FOODS: Cover all foods, dishes, utensils, and food processing surfaces before spraying. In food establishments use only after hours.

FOR EACH INSECT BELOW: Remove cap. Point nozzle of valve away from you, and press. Spray 3 feet away from surfaces. Repeat as necessary. Store away from stove, radiator, hot sun, or any place over 120 F. Do not allow spray on plastics, asphalt tile, wallpaper or furniture. Remove fish bowls, birds and pets from room.

FLYING INSECTS: (Flying moths, flies, mosquitoes, gnats, hornets, wasps) At center of room spray upwards in all directions for 5 to 10 seconds for average room. Keep doors and windows closed while spraying. Return after 15 minutes and air room.

CRAWLING INSECTS: (Roaches, silverfish, waterbugs, spiders, crickets) Spray directly at insects. Spray cracks, crevices, of walls and woodwork, behind sinks, cabinets, stoves, and damp dark hiding places. Spray where insects crawl.

FLEAS: Spray floors and animal quarters.

BEDBUGS: Take bed apart. Spray mattress seams, springs, cracks in bed frame, baseboards, floors.

ANTS: Spray trails, and directly on ants.
