

A multi-purpose specially built germicidal detergent that cleans, disinfects and deodorizes in one operation. Should be used in all areas where real cleanliness and disinfection is desirable and necessary. Use on floors, walls, bathroom fixtures, in hospital rooms and on equipment. After use in food plants, rinse surfaces well with potable water.

**GERMICIDAL ACTIVITY:**

The A.O.A.C. Use-Dilution Method confirms that it is effective against a wide range of pathogenic and pyogenic organisms at the following concentration of 1-64.

- Staphylococcus Aureus
- Salmonella Choleraesuis
- Pseudomonas Aeruginosa

**FUNGICIDAL ACTIVITY:**

Effective fungicide at 1-64 T. Interdigitale

**TUBERCULOCIDAL ACTIVITY:**

1-64 kills tubercle bacilli in air-dried films. Confirmed by A.O.A.C. Tuberculocidal Test Method.

# DETERGENT AND GERMICIDE

PHENOL COEF. 10 A.O.A.C.

EPA Reg. No. 1190-39

ACTIVE INGREDIENTS	15.76%
Tetrasodium ethylenediamine tetraacetate	3.06%
o-phenylphenol	3.06%
4-chloro-2-cyclopentylphenol	3.06%
Sodium xylene sulfonate	3.06%
Isopropyl alcohol	2.75%
p-tertiary amylphenol	0.77%
INERT INGREDIENTS	84.24%

**WARNING:**  
**KEEP OUT OF REACH OF CHILDREN**  
 See Antidote Statement and Other Precautionary Information on  
 Right Panel

**DIRECTIONS FOR USE**

Remove gross filth and heavy soil deposits before using at 1-64 or 2 ounces per gallon solution for disinfecting and general cleaning, including tubercular areas.

Rinse empty container thoroughly with water and discard it.

**FOR INDUSTRIAL AND INSTITUTIONAL USE ONLY**

**WARNING:** Keep Out of the Reach of Children. Causes severe eye or skin irritation. Do not get in eyes, on skin or on clothing. Harmful if swallowed. Avoid contamination of food.

**FIRST AID:** In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician.

# EAGLE SANI-MINT

**Disinfectant**

**Deodorizer**

**Bactericide**

SANI-MINT should always be diluted with water before using. It forms a milky emulsion with a refreshing odor.

Under normal conditions, use 2 1/2 ounces of SANI-MINT to each gallon of water and mop or wash, wetting all surfaces thoroughly, allowing contact for about 5 minutes.

To freshen and disinfect toilets, add about 2 to 3 ounces and allow to stand until the next use.

For use on very soiled porcelain sanitary fixtures, increase the amount of SANI-MINT to 4 or 5 ounces per gallon of water and use as directed above.
