EAGLE PRODUCTS COMPANY, INC.

GARLAND, TEXAS

*Aids in
 Reducing the Hazards of
 Cross Infection Caused
 by Germs and Viruses.*

DIRECTIONS FOR USING:

As a Disinfectant

Hold Dispenser upright 12 inches
 from the Surface to be disinfected
 and spray 3 seconds until surface
 is wet.

This disinfectant, due to its
 germicidal properties, destroys
 many odors due to BACTERIAL
 putrefaction and decay (e.g. odors
 caused by gangrene, cancer, stale
 food, perspiration).

Also excellent for such odors as
 smoke, stale air, tobacco, garlic,
 onions, and many chemical odors.

For Deodorizing

Hold dispenser upright, point
 opening away from face - spray
 into air toward center of room for
 about 4 seconds.

For deodorizing, use with
 ceiling fans, etc. with lights on
 and fan blowing. This will get
 most of the odor out of the room
 with few minutes. For deodorizing
 furniture, use with fan blowing
 and lights on. For deodorizing
 rooms, use with fan blowing
 and lights on.
