

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS (& DOMESTIC ANIMALS)

CAUTION: Do not get on skin, eyes, or clothing. Harmful if swallowed. Avoid breathing spray mist. NOTE TO PHYSICIAN: EMERGENCY INFORMATION - CalCHEMTRAC (800) 424-9300.

PERSONAL PROTECTIVE EQUIPMENT

Some materials that are chemical resistant to this product are listed below. If you want more options, follow the instructions for category E on an EPA chemical resistance category selection chart.

Applicators and other handlers must wear:

- Long sleeved shirt and long pants
- Shoes plus socks

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

When handlers use closed systems, enclosed cabs, or aircraft in a manner that meets the requirements listed in the Worker Protection Standard (WPS) for agricultural pesticides [40 CFR 170.240 (d) (4-6)], the handler PPE requirements may be reduced or modified as specified in the WPS.

USER SAFETY RECOMMENDATIONS

Users should:

- Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
- Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling this product. Wash outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds, and other wildlife. Do not apply directly to water or wetlands. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from treated areas. Do not contaminate water by cleaning equipment or disposal of wastes.

This product is slightly toxic to bees exposed to direct treatment. Can be applied at any time but bees are temporarily inactivated by direct contact and some loss may occur. Consult your Agricultural Extension Service for further protective information.

PHYSICAL OR CHEMICAL HAZARDS

Do not use or store near heat or open flame.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store only in original container in locked storage areas. If a spill occurs, visible puddles or drops should be covered with a dry absorbent such as clay, sawdust, lime or soda ash. Sweep up and dispose of in a permitted disposal facility. Avoid cross-contamination with other pesticides and fertilizers during handling and storage. Do not store near heat or open flame. Not for use or storage in or around the home.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities. Do not reuse container.

In case of spill or accident, call CHEMTRAC (800) 424-9300 day or night for assistance.

STATEMENT OF PRACTICAL TREATMENT

If swallowed do not induce vomiting, call a physician immediately.
 If on skin, immediately remove contaminated clothing and flush skin with plenty of water.
 If inhaled, remove victim to fresh air and get medical attention if symptoms persist.
 If in eyes, rinse with plenty of water. Get medical attention if irritation persists.

WARRANTY LIMITATIONS AND DISCLAIMER

1. Unocal warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated when used in accordance with the use directions under normal conditions. Unocal neither makes, nor authorizes any agent or representative to make, any other warranty of fitness or of merchantability, guarantee or representation, express or implied, concerning this material.
2. Critical and unforeseeable factors beyond Unocal's control prevent it from eliminating all risks in connection with the use of this material. Such risks include, but are not limited to, damage to plants and crops to which the material is applied, lack of complete control, and damage caused by drift to other plants or crops. Such risks occur even though the product is reasonably fit for uses stated herein and even though label directions are followed. Buyer and user acknowledge and assume all risks and liability resulting from the handling, storage, and use of this material (except those assumed by Unocal in (1) above). Unocal shall not be liable for incidental or consequential damages.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

Agricultural Use Requirements

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted-entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 12 hours.

PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water is:

- Coveralls
- Waterproof gloves
- Shoes plus socks

GENERAL USE INFORMATION

Gavicide-C is a straight-cut, narrow boiling range petroleum oil designed specifically for use on citrus.

Apply so as to give total coverage to all parts of the tree. Thorough drenching of trunks, limbs, twigs, and leaves is essential for maximum insect control.

Use only in spray machines with powerful positive agitation. Keep agitator running at all times during spray operation. Spray Oil is formulated as a "fast-break" spray oil and will not stay in solution unless agitated constantly.

DO NOT APPLY Spray Oil within 30 days before or after an application of sulfur.

DO NOT MIX with insecticides or fungicides incompatible with oil. Consult your State Ag. Extension Service for specific compatibilities.

DO NOT APPLY to trees weakened by disease, drought, drying winds, or high nitrogen applications.

DO NOT APPLY when temperatures exceed 90° F.

CROP RECOMMENDATIONS

NAVEL ORANGES, VALENCIA ORANGES, GRAPEFRUIT, LEMONS:

Apply 1.0 to 1.4 gallons of Spray Oil per 100 gallons of water for control of Citrus Red Mite, Red Scale, Yellow Scale and Black Scale.

Fill spray tank with 1/2 of the required amount of water. Start agitator. Add total amount of Spray Oil. Continue operation of agitator while adding balance of water and while spraying.

Spray Oil may be used as a carrier for appropriate approved citrus insecticides and fungicides which can be applied to give a uniform spray. Consult State Ag. Extension Service.
