

INSTRUCTIONS FOR USE

Use with any of the following power dusting equipment... Apply when mites first appear and repeat at 7-14 day intervals...

Fruit and Nut Crops

APPLES, PEACHES: Brown almond, two-spotted, Schoene, McDaniel, yellow, Harpirl, Willamette, Pacific and apple rust mites; for clean up of European red mite and clover mite -- Apply 40-50 lbs. per acre at petal fall to second cover or whenever mite population appears. Do not apply within 7 days of harvest.

CHERRY, NECTARINES, PEACHES, PLUMS, PRUNES: European red, clover (brown almond), two-spotted, Schoene, McDaniel, Pacific, Willamette, peach silver, plum nursery, and yellow mites -- Apply 40-50 lbs. per acre at petal fall to first cover or whenever mite population appears. If repeat application is necessary, wait 30 days to avoid excessive residue. Do not apply within 7 days of harvest on cherries, plums, and prunes; 14 days on peach, nectarine.

CITRUS (ORANGES, GRAPEFRUIT, LEMONS, LIMES, TANGELOES, TANGERINES): Apply 40-100 lbs. per acre to control mites (Citrus red, Yuma, Citrus flat, six-spotted). Do not apply within 7 days of harvest.

GRAPES: Brown almond (clover), European, McDaniel, Pacific, two-spotted, Willamette and yellow mites -- Apply 10-35 lbs. per acre. Do not apply within 7 days of harvest.

RASPBERRIES, STRAWBERRIES, LOGANBERRIES, BLACKBERRIES, BOYSENBERRIES: Brown almond (clover), two-spotted, European red, Pacific, McDaniel, Willamette and yellow mites -- Apply 15-30 lbs. per acre. Do not apply within 2 days of harvest.

STRAWBERRIES: Cyclamen, two-spotted, strawberry (Atlantic) and six-spotted mites -- Apply 25-35 lbs. per acre. Do not apply within 2 days of harvest.

WALNUTS, FILBERTS: Brown almond (clover), two-spotted, European red, Pacific, McDaniel, Willamette and yellow mites -- Apply 40 lbs. per acre. Do not apply within 14 days of harvest. Do not feed hulls to livestock.

Vegetable and Field Crops

ALFALFA, CLOVER (Seed Crops): Two-spotted, Strawberry (Atlantic), carmine, and Pacific mites -- Apply 25-35 lbs. per acre. Use restricted to California and to Grant and Adams Counties, Washington. Fields not to be grazed by livestock. Crop cuttings or residues not to be fed or baled. The fields must be cleared after harvest by burning or discing into the soil.

CUCUMBERS, CANTALOUPES, SQUASH: Apply 20-35 lbs. per acre to control two-spotted and Pacific mites. Do not apply within 2 days of harvest.

KELTHANE 4 DUST

AN AGRICULTURAL MITICIDE

Table with 2 columns: Ingredient Name and Percentage. Includes Kelthane (1,1-bis (p-chlorophenyl)-2,2,2-trifluoroethane) at 4.0% and Inert Ingredients at 96.0%.

\*Registered trademark of Rohm & Haas Company

E.P.A. Reg. No. 1.67-176-AA

CAUTION

KEEP OUT OF REACH OF CHILDREN

Avoid contact. Avoid inhalation. Avoid contact with eyes. Wash thoroughly after handling.

RESERVE THE FOLLOWING PRECAUTIONS:

- Observe the limitations given on the label for specific uses. Do not use on feed or forage to be fed to any animal... This product is toxic to fish... The Federal Food and Drug Administration has set official tolerances for certain pesticide residues...

ACCEPTED WITH COMMENTS

STRAWBERRY (Atlantic, strawberry), Pacific... Apply 15-35 lbs. per acre depending on days of harvest. Do not graze... TOMATOES, EGGPLANT, PEPPERS: Pacific spotted mites -- Apply 20-35 lbs. harvested. ORNAMENTALS, FLOWERS, NURSERY STOCK: greenhouse or outdoor plants, make present and repeat as necessary.

CONDITIONS OF SALE: 1. PureGro Co. material conforms to the chemical description for use as directed hereon. Material is sold as is, without warranty, representation or guarantee of MERCHANTABILITY, guarantee or representation of this material. Critical and unforeseeable factors from eliminating all risks in connection with the use of this material include, but are not limited to: the material is applied, lack of control to other plants or crops. Such risks are reasonably fit for the uses stated and followed. Buyer and user acknowledge those assumed by the manufacturer upon use of this material.

KEEP OUT OF REACH OF CHILDREN

Avoid contact. Avoid inhalation. Avoid contact with food. Wash thoroughly after handling.

### RESUME THE FOLLOWING USE LIMITATIONS

Observe the limitations given on the label for specific crops. Do not use on feed or forage to be fed to dairy animals or animals to be finished for slaughter. This product is toxic to fish. Keep out of any body of water. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment or disposal of wastes. The Federal Food and Drug Administration has set official tolerances for certain pesticide residues. In order that residues on food and forage crops will not exceed established tolerances, only at recommended rates, and do not apply closer to harvest than suggested.

LOS ANGELES, CALIFORNIA

Continued from page 10

**APPLES:** Two-spotted, strawberry (Atlantic), and other apple mites. Apply 20-30 lbs. per acre. Do not feed treated apples to livestock. Do not apply within 7 days of harvest.

**PEACHES:** Atlantic (strawberry), Pacific, two-spotted and desert. Apply 15-35 lbs. per acre depending on size of plants. Do not apply within 14 days of harvest. Do not graze treated fields by beef or dairy cattle.

**PEARS:** Two-spotted mites -- Apply 15-30 lbs. per acre during early season. 30-35 lbs. for mid to late season. Do not apply within 7 days of harvest.

**TOMATOES, EGGPLANT, PEPPERS:** Pacific, tropical, tomato russet and two-spotted mites -- Apply 20-35 lbs. per acre. Do not apply within 7 days of harvest.

**ORNAMENTALS, FLOWERS, NURSERY STOCK AND SHADE TREES:** For control of spider mites in greenhouse or outdoor plants, make full coverage applications when mites are present and repeat as necessary.

**CONDITIONS OF SALE:** 1. Puregro Company (manufacturer) warrants that this material conforms to the chemical description on the label and is reasonably fit for use as directed hereon. Manufacturer neither makes, nor authorizes any agent or representative to make, any other warranty of FITNESS, MERCHANTABILITY, GUARANTEE or representation, express or implied, concerning this material.

2. Critical and unforeseeable factors beyond the manufacturer's control may prevent it from eliminating all risks in connection with the use of chemicals. Such risks include, but are not limited to, damage to plants and crops to which the material is applied, lack of complete control, and damage caused by drift to other plants or crops. Such risks occur even though the product is reasonably fit for the uses stated hereon and even though label directions are followed. Buyer and user acknowledge and assume all risks and liability, including those assumed by the manufacturer under 1 (above) resulting from handling, storage, and use of this material.
