

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS
(AND DOMESTIC ANIMALS)**

CAUTION

Do not get on skin, eyes, or clothing. Harmful if swallowed. DO NOT INDUCE VOMITING. Call a physician immediately. Avoid breathing spray mist. In case of contact, immediately remove contaminated clothing and flush skin or eyes with plenty of water; for eyes, get medical attention if irritation persists. Do not apply this product in such a manner as to directly or through drift expose workers or other persons. The area being treated must be vacated by unprotected persons.

NOTE TO PHYSICIAN: EMERGENCY INFORMATION - Call CHEMTREC (800)424-9300.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds, and other wildlife. Do not apply to water or wetlands. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from treated areas. Do not contaminate water by cleaning equipment or disposal of wastes.

This product is slightly toxic to bees exposed to direct treatment. Can be applied at any time but bees are temporarily inactivated by direct contact and some loss may occur. Consult your Agricultural Extension Service for further protective information.

PHYSICAL OR CHEMICAL HAZARDS

Do not use or store near heat or open flame.

DIRECTION FOR USE

General Classification

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. READ ENTIRE LABEL. Use strictly in accordance with label cautions, warnings, and directions; and in conformity with Federal and State regulations.

- DO NOT APPLY spray oil without consulting your State Agricultural Extension Service.
- DO NOT COMBINE WITH SULFUR SPRAYS and DO NOT APPLY spray oil within 30 days before or after an application of sulfur
- DO NOT MIX with insecticides or fungicides incompatible with oil. Consult your State Agricultural Extension Service for specific compatibilities.
- DO NOT APPLY to trees weakened by disease, drought, drying winds, or high nitrogen applications
- DO NOT USE Gavicide Super 90 when temperatures are above 90° Fahrenheit

REENTRY STATEMENT

Do not apply this product in such a manner as to drift expose workers or other persons. The area be vacated by unprotected persons. Do not enter treated areas without protective clothing.

Because certain states may require more restrictions for various crops treated with this product, Department of Agriculture for further information. Written or oral warnings must be given to workers to be in a treated area or in an area about to be treated. When oral warnings are given, warning language customarily understood by workers (or written if there is reason to believe that written is understood by workers. Written or oral warning following information: "Warning" "Area to be treated with Gavicide Super 90" "Do not enter without appropriate protective clothing" "If accidentally exposed, consult Practical Treatment portion of the pesticide label for medical attention recommendations."

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage. STORAGE: Store only in original container in locked area. Spills, puddles or drips should be contained with absorbent such as clay, sawdust, lime or soda ash and disposed of in a permitted disposal facility. Avoid contact with other pesticides and fertilizers during handling. Do not store near heat or open flame. Not for Use or Storage in Home.

PESTICIDE DISPOSAL
Wastes resulting from the use of this pesticide should be disposed of on site or at an approved facility.

CONTAINER DISPOSAL Triple rinse (or equivalent) recycling or reconditioning or puncture and disposal by other procedures approved by state and local authorities. Do not reuse container.

In case of spill or accident, call CHEMTREC 24 hours a day or night for assistance.

GENERAL DIRECTIONS: Gavicide Super 90 is a straight cut narrow boiling range petroleum oil designed specifically for deciduous fruit trees.

Apply so as to give total coverage of tree. Thorough drenching of trunk, twigs and leaves is essential for insect control.

Use only in spray machines with positive agitation. Keep agitator running all times during spray operations. Super 90 is formulated as a "float" spray oil and will not stay in solution if agitated constantly.

REENTRY STATEMENT

Do not apply this product in such a manner as to directly or through drift expose workers or other persons. The area being treated must be vacated by unprotected persons. Do not enter treated areas without protective clothing until sprays have dried.

Because certain states may require more restrictive reentry intervals for various crops treated with this product, consult your State Department of Agriculture for further information.

Written or oral warnings must be given to workers who are expected to be in a treated area or in an area about to be treated with this product. When oral warnings are given, warnings shall be given in a language customarily understood by workers. Oral warnings must be given if there is reason to believe that written warnings cannot be understood by workers. Written or oral warnings must include the following information:

Warning: "Area to be treated with Mineral Oil (date of application). Do not enter without appropriate protective clothing until sprays have dried. If accidentally exposed, consult the Statement of Practical Treatment portion of the pesticide label for first aid and medical attention recommendations."

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store only in original container in locked storage area. If spill occurs, visible puddles or drops should be covered with a dry absorbent such as clay, sand, dust, lime or soda ash. Sweep up and dispose of in a permitted disposal facility. Avoid cross-contamination with other pesticides and fertilizers during handling and storage. Do not store near heat or open flame. Not for use or storage in or around the home.

PESTICIDE DISPOSAL

Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities. Do not reuse container.

In case of spill or accident, call CHEMTREC (800) 424-9300 day or night for assistance.

GENERAL DIRECTIONS

Use a straight cut narrow range nozzle with a stream of designed specifically for use on deciduous fruit trees.

Apply 5 to 10 gallons total coverage to all parts of tree. If thorough drenching of trunks is desired, 10 to 15 gallons is essential. Do not use on sensitive plants.

Apply to the surface of the tree with a spray nozzle. Do not spray directly into the trunk of the tree. Spray until the surface of the tree is thoroughly wet and water will stay on the tree for 15 to 20 minutes.

CROP RECOMMENDATION

Dormant, delayed dormant or summer applications. Almonds, apricots, apples, cherries, peaches, pears, prunes. Apply 5-8 gallons oil per acre for control of European Red Mite, Brown Almond Mite, two spotted Mite, Pacific Mite, Pear Psylla, McDaniel Mite, Strawberry Mite, Plum Nursery Mite, Yellow Amelie Mite, Pear Rust Mite, Peach Scale Mite, San Jose Scale, and Lecanium Scale.

Walnuts: Late spring application: apply 5-7 gallons oil per acre for control of San Jose Scale, Walnut Aphid.

Duration Rate: Apply rates given in 50 to 100 gallons water per acre.

Fill spray tank with the required amount of water. Start agitator. Add total amount of spray oil. Continue operation of agitator while adding balance of water and while spraying.

Spray oil may be used as a carrier for appropriate insecticides and fungicides which are Registered for use on deciduous fruits and nuts and which can be applied to give a uniform spray. Consult your local Agricultural Extension Service.

CONDITIONS OF SALE AND WARRANTY

PUREGRO warrants that this product conforms to the chemical description on the label, that it is and is reasonably fit for purposes stated on such label only when used in accordance with directions under normal use conditions. It is impossible to eliminate all risks inherent associated with use of this product. Ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of PUREGRO. PUREGRO MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY OR ANY OTHER EXPRESS OR IMPLIED WARRANTY.
