CHEMICAL CORPORATION
 3915 AIR PARK STREET, MEMPHIS, TENNESSEE, 38130

EFFECTIVE:

A liquid insecticide that kills on contact, roaches, water bugs, silverfish, firebrats, ants, brown dog ticks, spiders, scorpions, crickets, wasps, flies and mosquitoes.

RESIDUAL:

Retains its activity for several days.

ECONOMICAL:

Protects your plant, your product and your personnel.

DIRECTIONS

APPLICATION FOR NON-FOOD AREAS:

IMPORTANT — Paint or Spray until wet, only infested surfaces.

ROACHES, WATER BUGS, CRICKETS, SILVERFISH, FIREBRATS: Apply thoroughly to infested areas, such as cracks, crevices, along water pipes, under sinks, baseboards, areas behind shelving, and underneath book shelves, using a paint brush, coarse sprayer or ordinary oil can. Will not stain woodwork. For effective control, repeat application as required.

FLIES, MOSQUITOES — Use outdoors only: For killing and preventing the entry of these insects indoors, spray a heavy coarse spray or paint on the outside surfaces of doors, windows, screens, around light fixtures, on open porches, and other surfaces where these insects appear. Also may be used around garages, sheds, outhouses, and garbage cans, by spraying a heavy coarse spray or painting insecticide on infested surfaces where the pests crawl or appear. Repeat treatment as often as needed.

SPIDERS, SCORPIONS, WASPS, CENTIPEDES: Apply a heavy application with brush or coarse spray until infested areas are wet; such as around window frames, door sills, or wherever these insects may enter the house. To effectively control these pests in non-household structures, such as garages, and outhouses, paint or spray infested surfaces over which they crawl or appear. For best residual control, repeat as needed.

Rev. 7-74

ANTS: Spray FOREMOST DEL-KILL or paint until wet, along the back of shelves, and the openings around the pipes, heat ducts, electrical outlets, or baseboards where ants may come out into rooms from wall spaces and partitions and ant trails. To maintain effective control, repeat application as often as necessary.
BROWN DOG TICKS: Treat thoroughly the same as for roaches. Spray or paint heavy application around baseboards, window and door frames, wall cracks, sleeping quarters of household pets, and other infested surfaces. Spray or paint infested areas of floors and floor coverings. Fresh bedding should be placed in animal's quarters following treatment. Do not treat pets or other animals. The frequency and extent of application required to infested surfaces will depend upon the source and intensity of the infestation.

APPLICATION WITHIN FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS:

Such as industrial plants, warehouses, bakeries, dairies, restaurants, hotels, motels, food processing plants and clubs.
LIMITED TO CRACKS AND CREVICES ONLY — Use spray equipment that can deliver a pencil-thin stream of insecticide directly into cracks and crevices such as expansion joints between different elements of construction or between equipment bases and floor, wall voids, motor housing, junction boxes or switch boxes, conduits or hollow equipment legs where roaches, water bugs, crickets, silverfish, firebrats, spiders, centipedes, ants and brown dog ticks hide. Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. **AVOID CONTAMINATION OF FOOD OR FOOD PROCESSING SURFACES. APPLICATION OF THIS PRODUCT IN THE FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS, OTHER THAN AS A CRACK AND CREVICE TREATMENT, ARE NOT PERMITTED.**

WARNING — FLAMMABLE: KEEP AWAY FROM HEAT AND OPEN FLAME. KEEP OUT OF REACH OF CHILDREN. Do not allow children to contact treated surfaces until surfaces are completely dry. Do not use as a space spray. Remove pets and cover fish before spraying. May be harmful if swallowed or inhaled or absorbed through the skin. Avoid breathing of spray mist. Do not get in eyes, on skin or on clothing. In case of contact, wash immediately with soap and water. Wash hands, arms and face thoroughly with soap and water before eating or smoking. Wash all contaminated clothing with soap and hot water before reuse. Should illness occur get prompt medical aid. To physician — Atropine sulfate is antidote.

This product is toxic to birds and wildlife. Keep out of lakes, streams, or ponds. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label.

FIRE HAZARD — Do not spray into or near fire or open flame. Do not smoke when spraying.

NOTE: Do not use empty container. Destroy it by perforating or crushing. Buy and discard in a safe place away from water supplies.

NOTICE
 Seller makes no warranty, expressed or implied concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and handling of this material when such as and/or handling is contrary to label instructions. EPA Reg. No. 1203-5
