

Do not deliver a pencil-thin stream of insecticide directly into cracks and crevices such as expansion joints, base of different elements of construction or between equipment and base boards, wall voids, meter housings, junction boxes or switch boxes, conduits or other equipment legs where ropes, water bags, crickets, silverfish, firebrats, spiders, cockroaches, ants and other insects hide. Care should be taken to avoid depositing the material onto exposed surfaces or introducing the material into the air. Avoid contamination of food or food processing surfaces. Prior to application de-energize electrical equipment. After application, allow time for all to evaporate before starting motors or placing switches in the "ON" position.

**APPLICATION OF THIS PRODUCT IN THE FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS, OTHER THAN AS A CRACK AND CREVICE TREATMENT IS NOT PERMITTED.**

### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

**PESTICIDE STORAGE AND SPILL PROCEDURE:** Store upright at room temperature. Avoid exposure to extreme temperatures. In case of spill or leakage, soak up with an absorbent material. Dispose of with chemical waste.

**PESTICIDE DISPOSAL:** Pesticide, spray mixture or rinse water must be disposed according to label instructions or by an approved waste disposal facility.

**NON HAZARDOUS DISPOSAL:** Triple rinse (or equivalent) then offer for recycling or reuse, or puncture and dispose in a sanitary landfill, or by other approved state and local procedure.

### PRECAUTIONARY STATEMENT

#### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

##### WARNING:

May be harmful if swallowed, inhaled, or absorbed through the skin. Avoid breathing of spray mist and provide adequate ventilation of area being treated. Contact with skin, eyes, or clothing should also be avoided. Wear protective gloves when making applications. Wash thoroughly after using. Avoid contamination of food, utensils, and food preparation areas.

Do not contaminate feed or food. Keep out of reach of children.

Wash hands, arms and face thoroughly with soap and warm water after handling. Wash contaminated clothing with soap and hot water before reuse.

Remove pets and cover fish aquariums before spraying. Do not allow children or pets to contact treated surfaces until they are dry.

#### PHYSICAL OR CHEMICAL HAZARDS

**THIS PRODUCT IS FLAMMABLE.** Keep away from heat or open flame. Do not use or store near fire, sparks, or heated surfaces. Turn off pilot lights in gas appliances and unplug or turn off electrical equipment in the use area. After airing out phase is completed, relight pilot lights and reconnect electrical current. Do not smoke in the use area.

#### STATEMENTS OF PRACTICAL TREATMENT

In case of poisoning, call a physician immediately. Have patient lie down and keep quiet.

If on skin, wash immediately with soap and warm water. If irritation occurs, get medical attention. If eyes are contaminated, wash with plenty of water. Get medical attention. If inhaled, remove to fresh air. If not breathing, give artificial respiration, preferably mouth to mouth. Get medical attention. If swallowed: Call a physician or Poison Control Center. Do not induce vomiting. Vomiting may cause an aspiration hazard.

**SYMPTOMS OF POISONING:** A sense of "tightness" in chest. Sweating. Contracted pupils. Stomach pains. Vomiting and diarrhea.

#### NOTE TO PHYSICIAN:

**ANTIDOTE** - Administer atropine sulfate in therapeutic doses. Repeat as necessary to the point of tolerance.

#### NOTICE

Seller makes no warranty, expressed or implied concerning the use of this product other than indicated on the label. Buyer assumes all liability.

PM 19 1203-5

**EFFECTIVE:** A liquid formulation which provides rapid kill of each of the following insects, including those resistant to certain chlorinated hydrocarbon and phosphate insecticides: ants, brown dog ticks, clover mites, crickets, earwigs, fleas, flies, hornets, millipedes, mosquitoes, roaches, saw toothed grain beetle (exposed stage) scorpion, silverfish, sawbugs, spiders and wasps.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**HOW TO USE:** Foremost Del Kill Insecticide is ready to use undiluted as it comes from the can, and may be applied with either power-operated or hand pressurized sprayers. Do not apply this product using a trigger pump sprayer. Apply as a coarse spray to surfaces until wet, moving the spray stream rapidly enough to prevent excessive wetting of surfaces and waste of material.

**Indoor Use:**

**ANTS, COCKROACHES, CRICKETS, SILVERFISH, SPIDERS, SCORPIONS, SAW-TOOTHED GRAIN BEETLES (EXPOSED STAGE), WATERBUGS:** Spray into cracks, crevices, around baseboards, and other places where these insects hide. Apply behind and beneath cabinets, refrigerators, sinks, stoves, and in and around waste containers. For ants, spray trails and places where ants enter premises. Repeat as needed. Do not spray foodstuffs or house plants. Remove pets and cover fish bowls before spraying. Applications may be made to floor surfaces along baseboards and around air ducts, however, do not treat entire area of floor or floor coverings. Do not allow children to contact treated surfaces until surfaces are completely dry.

**ANTS, CLOVER MITES, CRICKETS, EARWIGS, FLEAS, FLIES, HORNETS, MILLIPEDES, MOSQUITOES, SAWBUGS, WASPS.** Spray thoroughly those areas where pests have been seen or found including outside surfaces of screens, doors, window frames, foundations, patios, or other places where insects may enter. For ants, spray runways. For control of wasps and hornets apply after dark when all of the insects have returned to the nest. Repeat as necessary. Do not spray vegetation.

**ATTENTION:** Do not apply to rugs, carpets, draperies, wallpaper, or similar materials that may be stained. Avoid excessive wetting of plastic, rubber and asphalt surfaces as tiles and floor coverings.

**RESTRICTION WITHIN FOOD AREA OF FOOD HANDLING ESTABLISHMENTS:** Limited to Insect and Control Treatment Only; includes areas for cooking, storage, packing (loading, unloading, emptying, boxing), preparing edible waste storage and enclosed processing systems (pills, capsules, edible oils, syrups). Serving areas, when food is exposed and facility is in operation also would be considered a food area. Use spray equipment
