

DEC 16 1994

Delta Foremost Chemical Corp
 3915 Air Park Street
 Memphis, TN 38118

Attention: Haschal Golden
 Lab Manager

Subject: Foremost 1690 Quad-Dis
 EPA Registration No. 1203-14
 MOU Compliance Amendment dated October 19, 1994

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable provided that you make the labeling changes listed below before you release the product for shipping bearing the amended label.

- Under "DIRECTIONS FOR USE", revise the statement "For disinfection of walls, ...gallon of water" to read "For disinfection of walls, ...gallon of water, for a contact time of at least 10 minutes." Product is for commercial and industrial use only. Hospital use claims have been deleted, therefore, MOU disclaimer is not required.

A stamped copy of the labeling is enclosed for your records. Submit 5 copies of the final label prior to releasing the product for marketing.

If you have any questions concerning this letter, please contact Wanda Mitchell at (703) 305-6141.

Sincerely yours,

WCF

Walter C. Francis
 Acting Product Manager (31)
 Antimicrobial Program Branch
 Registration Division (7505C)

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

General—This product is a concentrate to be mixed with water before use. It should not be used in conjunction with soap or other anionic detergent. However it is compatible with detergents of cationic or non-ionic type.

Industrial areas, Hotels, Motels, Restaurants, other non medical uses:

For disinfection of walls, floors, lavatory fixtures, and other surfaces, after cleaning, use a solution containing one ounce of concentrate to one gallon of water.

Dishes, glassware, and other food utensils after cleaning, can be sanitized with a solution containing one ounce of concentrate to four gallons of water and allow at least one (1) minute contact time. Recommended dilution should conform with local health department recommendations.

Deodorize by mopping or spraying a solution containing one ounce of concentrate to one gallon of water.

SANITIZATION OF DAIRY EQUIPMENT

Clean and rinse thoroughly all cans, pails, strainers, milking machine parts and related equipment. Then rinse with sanitizing solution containing one ounce of concentrate to four gallons of water at a least one (1) minute contact time. Allow to drain thoroughly and air dry. The same dilution is also recommended for flank and udder washing prior to milking. Follow recommendation of your health department.

This concentrate product fulfills the criteria of Appendix F of the Grade "A" Pasteurized Milk Ordinance 1965 Recommendations of the U.S. Public Health Service in water up to 550 ppm (32 grains per gallon) of hardness calculated as CaCO_3 when tested by the method outlined by Chambers.

MEAT, POULTRY AND FOOD PROCESSING PLANTS

Clean and rinse equipment thoroughly. Then scrub with a solution of one ounce of concentrate to four gallons of water with at least one (1) minute contact time. Allow surfaces to drain thoroughly and air dry before use. On surfaces difficult to clean completely, such as meat cutting boards, increase strength of solution to one ounce to one gallon of water and rinse with potable water.

POULTRY HOUSES AND EQUIPMENT

Used as directed, the product is odorless, effective and non-corrosive to utensils. Houses, feed utensils and water fountains should be thoroughly cleaned, disinfected and rinsed with potable water before a new flock is placed in the house. Feeders should be cleaned, disinfected and rinsed with potable water daily. Use in the hatchery to disinfect trays, incubator and hatching.

FOR SANITIZATION clean thoroughly and mop or spray with a solution containing one ounce of concentrate to four gallons of water. Dip small utensils into the solution.
FOR DISINFECTION after cleaning, use one ounce of concentrate to two gallons of water.
TO DEODORIZE, use one to two ounces per gallon of water.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE AND SPILL PROCEDURE: Store upright at room temperature. Avoid exposure to extreme temperature. In case of spill or leakage, soak up with an absorbent material. Dispose of with chemical waste.

PESTICIDE DISPOSAL: Pesticide, spray mixture or rinse water must be disposed of according to label instructions at or by an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

PRECAUTIONARY STATEMENTS

Hazard to Human and Domestic Animals

DANGER:

KEEP OUT OF REACH OF CHILDREN. Causes severe eye and skin damage. Do not get in eyes, on skin or on clothing. Harmful if swallowed. Wear goggles or face shield and rubber gloves when handling. Avoid contamination of food. Remove and wash contaminated clothing.

STATEMENT OF PRACTICAL TREATMENT

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink egg whites, gelatin solution or if these are not available, drink large quantities of water. Call a physician.

NOTE TO PHYSICIAN

Probable mucosal damage may contraindicate the use of gastric lavage.

ENVIRONMENTAL HAZARDS:

This product is toxic to fish and wildlife. Birds and other wildlife in treated areas may be killed. Do not apply directly to water. Do not apply when weather conditions favor drift from area treated. Do not contaminate water by cleaning of equipment or disposal of waste. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.
